Our mission is to passionately develop reliable innovative pool solutions that give our customers 100% peace of mind.

Who are we?

With nearly 40 years experience, the Poolrite brand is a name you can trust.

Established in 1978, Poolrite, was founded by Peter Wolpert in Sydney's Western Suburbs. Over the years, Poolrite has successfully introduced many new innovative products, including the PM Super Quiet (SQI) pump (1982), one of the first salt chlorination systems for Australia and overseas (1986), and the Smart Valve (2000).

In 1999, Poolrite was purchased by Australian-owned Palmer Group from GWA and relocated its manufacturing from Sydney to Brisbane several years later (2002).

In 2007, Poolrite launched an innovative system that redefined water quality standards and provided healthy, environmentally friendly mineral water for your swimming pool.

In 2008, Poolrite celebrated its 30-year anniversary as a strong Australian Pool Industry leader.

In June 2013, Evolve Supply Chain Pty Ltd successfully won the bid to acquire all of Poolrite's assets.

Today, Poolrite continues its brand legacy under the Evolve Group, a private company passionately committed to innovation, quality, and to maintaining the highest service standards in the industry.

Peace of Mind!

How are we different?

Poolrite are proudly Australian owned and made.

Manufactured in our Brisbane based facility we have a wide variety of distributors and retailers throughout Australia and New Zealand.

The poolrite competitive advantage comes from having our own ISO9001 accredited Australian manufacturing facility where we also manage all product design. With nearly 40 years experience in the pool market, we understand what works and know that warranty and spare parts are of the upmost importance. Poolrite continues to push the boundaries within the pool industry confidently, and consistently, offering the best warranty terms in the industry with up to 10 years warranty on certain types of pool pump housings and filter tanks (only) and up to 4 years combined warranty on chlorinator cells*.

*Warranties may vary product to product. Please check individual product information for relevant details.
