

# Orgone Pendant

Testing results from Gas Discharge Visualisation Technique

# Proof the Orgone Pendant is Powerful

Orgone Effects Australia strives to provide data demonstrating the strength of the Orgone Pendant.

# Can you afford to be without an Orgone Pendant?

*“The results shocked me” “ In the 15 years I have been testing, I have only seen this level of Aura development in Meditators or Spiritual Practitioners such as swamis. I have tested many energy enhancers /shielding devices and crystals and none has come close to the effect of the Orgone Pendant”*

Mathew Shields, registered nurse GDV Practitioner

# What makes the Orgone Pendant so effective?

- The secret combination of materials in the Orgone Pendant acts as an energy charger, or has a harmonising effect on the frequencies that make up the Aura.
- A bio-resonance in which pure frequency acts to amplify a like but inharmonious frequency to allow it to become a whole.

# Gas Discharge Visualisation (GDV)

## How does this testing work?

- The system is based on capturing and analysing the Kirlian effect.
- The Kirlian effect is the biological glow that the body emits often referred to as the AURA.
- The GDV system uses fibreglass optics, digitised TV Matrix and Powerful software to capture images.
- The system capture images of the fingers and then calculates 30 parameters.
- These scores are then statistically processed to evaluate changes in health, psychological states and therapeutic regimes.

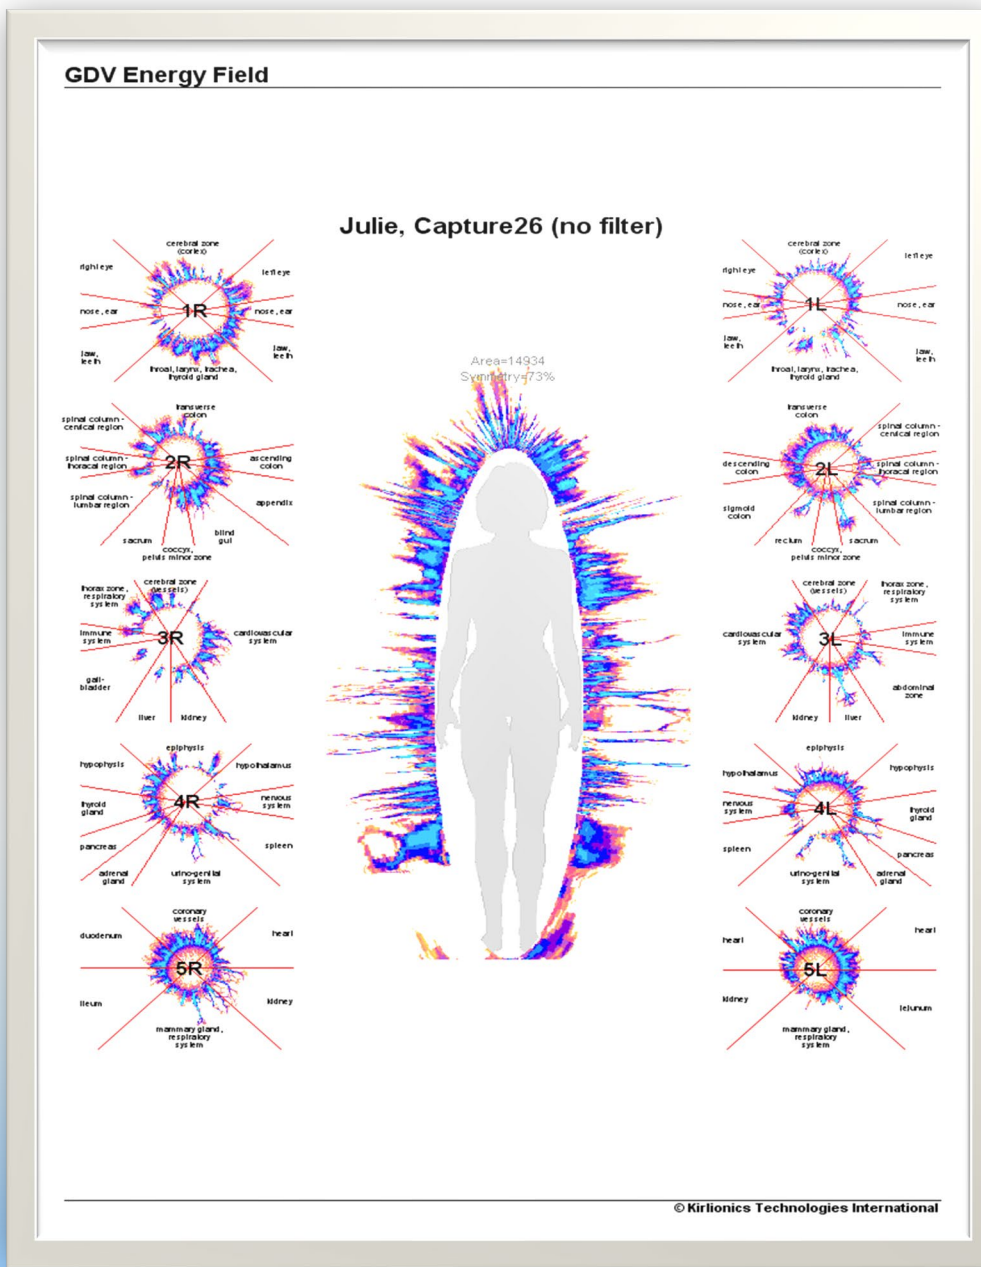

# Exactly what happens?

- Images called Biological Emission of Optical Tomography (BEO-grams) are created when a high frequency field is emitted which causes the AURA to glow.
- The high frequency field is emitted and ten fingers are photographed to get the BEO-grams.
- Each finger represents a system, organ or chakra of the body.
- The results from the ten fingers are analysed and produce an executive picture of the whole body.

# Why the fingertips?

- The meridians of the body relate to the systems and organs of the body.
- These meridians are represented in the hands and the fingers.
- Extensive research has identified the organ or systems represented by each finger.
- The GDV system measures over 30 parameters and scores them statistically to evaluate changes in health psychological states and also therapeutic regimes.

Images of the ten fingers then produce an executive image (whole body)

# The Research

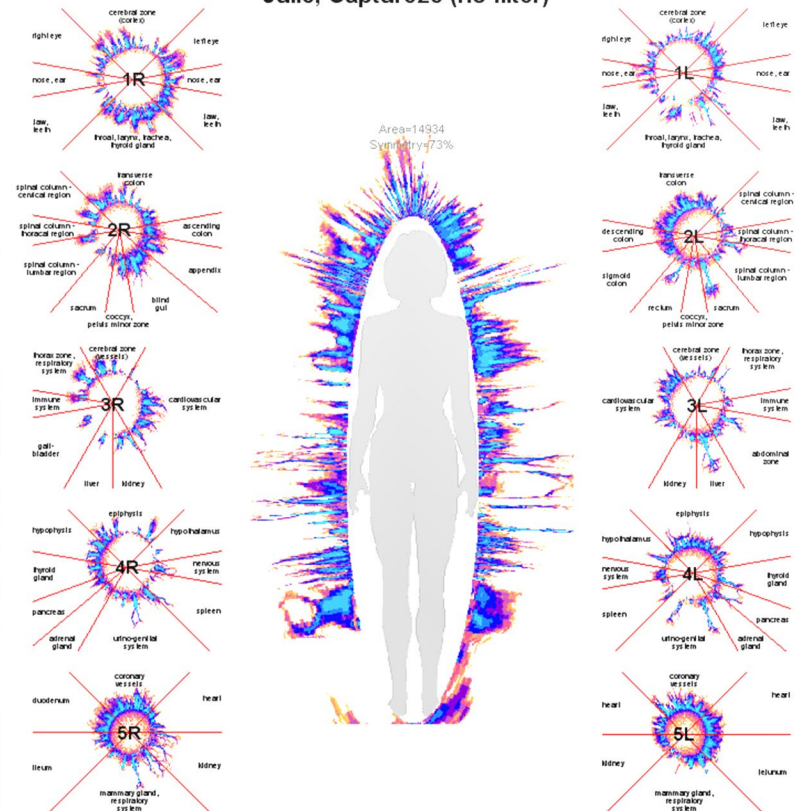

- The GDV system has been used to test the effect the pendant has on the subject's Aura.
- An Aura which is healthy has good symmetry, brightness and uniformity.
- This means the body is best positioned to fight disease.
- The immune system is activated.
- The images are presented in different ways but in the same sequence.
- Image 1 is taken without wearing the pendant.
- Image 2 is taken after wearing the pendant for 3 hours.
- Image 3 is taken after wearing the pendant for 6 hours.
- Image 4 is taken after wearing the pendant for 24 hours.

# Aura without wearing the Orgone Pendant

The aura is not complete and in many places is very inconsistent and lacks symmetry.

## GDV Energy Field

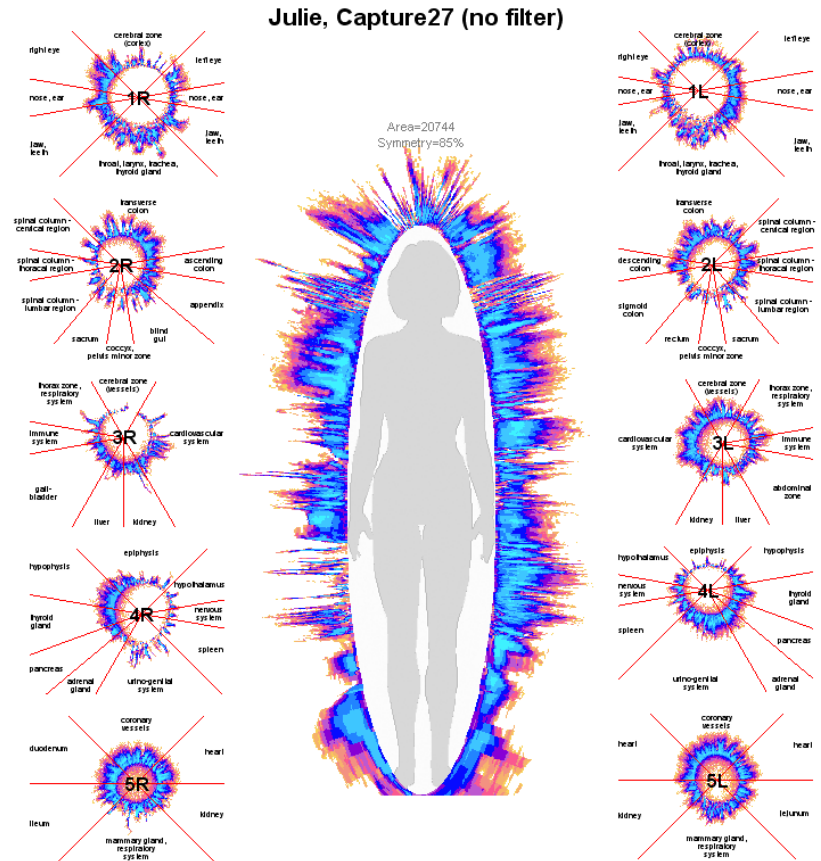

Julie, Capture26 (no filter)

# Orgone Pendant – Aura after 3 Hours

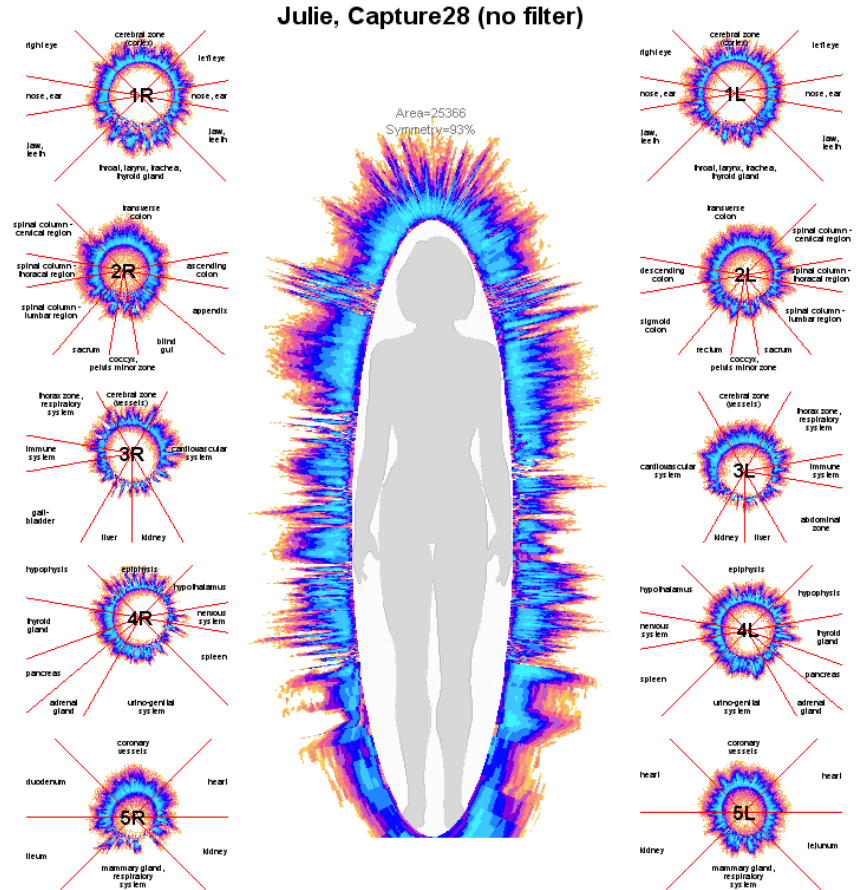

The aura is increasing areas that had no protection and are covering.

## GDV Energy Field

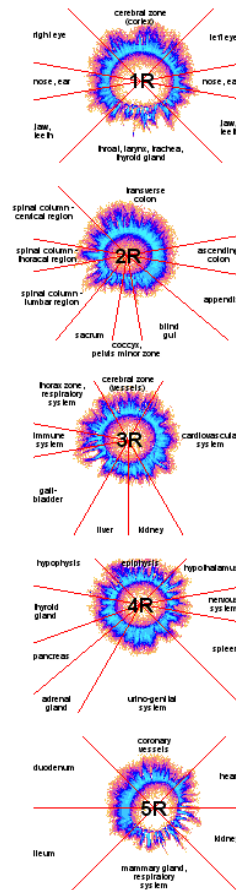

# Orgone Pendant – Aura after 6 Hours

The aura is nearly symmetrical  
and nearly uniform.

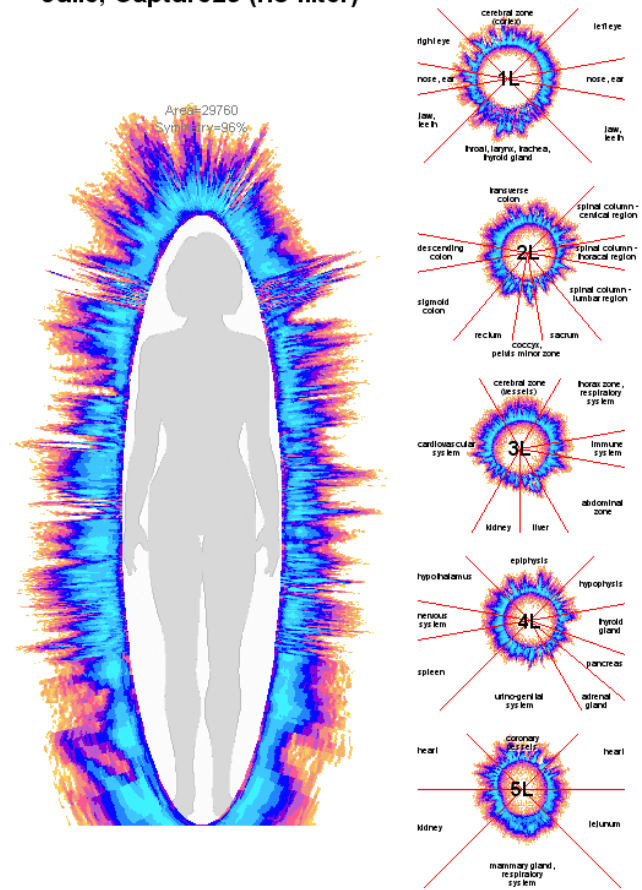

# Orgone Pendant – Aura after 24 Hours

The aura is complete, uniform, symmetrical and bright. The immune system is in harmony

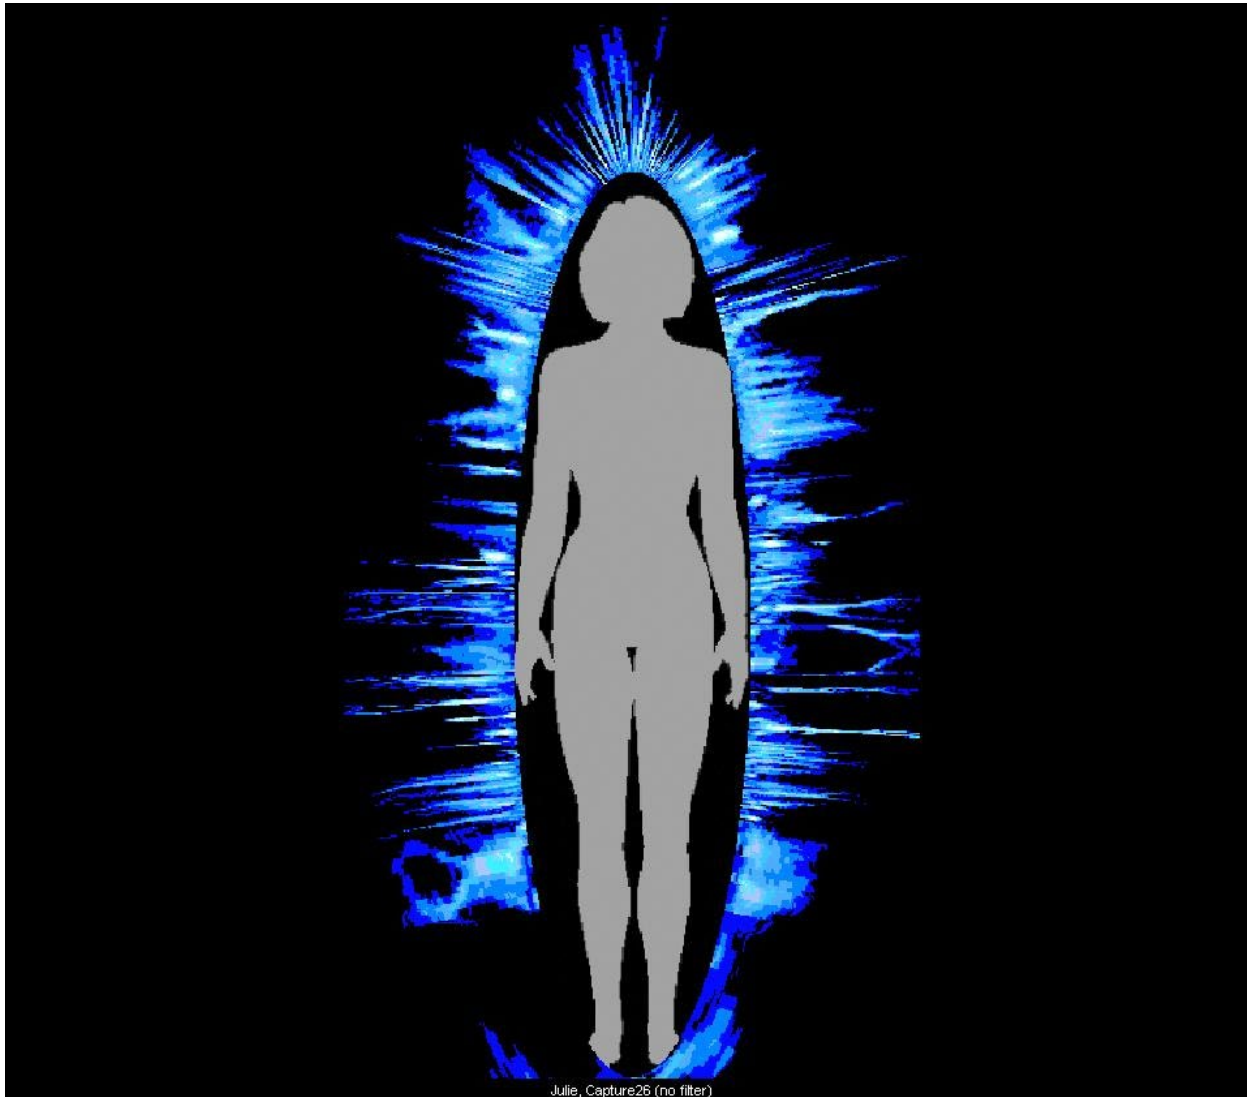

Julie, Capture29 (no filter)

# The Chakras

- There is a sitting man on the left of the image.
- There are seven circles.
- The optimum position for the dots is that they are even and sit in a straight line.
- The left side is psychological imbalance.
- The right is physical imbalance.

# Analysis of the results with no Orgone Pendant

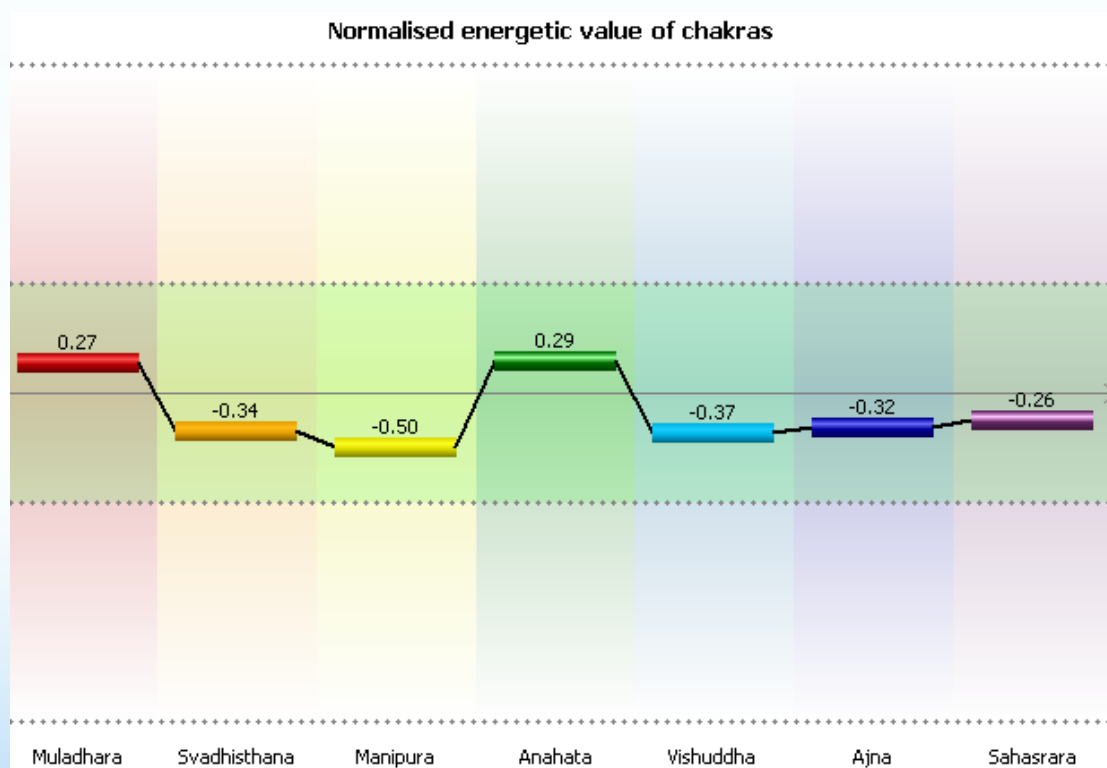

- Purple is
- Blue is
- Light Blue is
- Green is
- Yellow is
- Orange is
- Red is

# Normalised energetic values of the Chakras

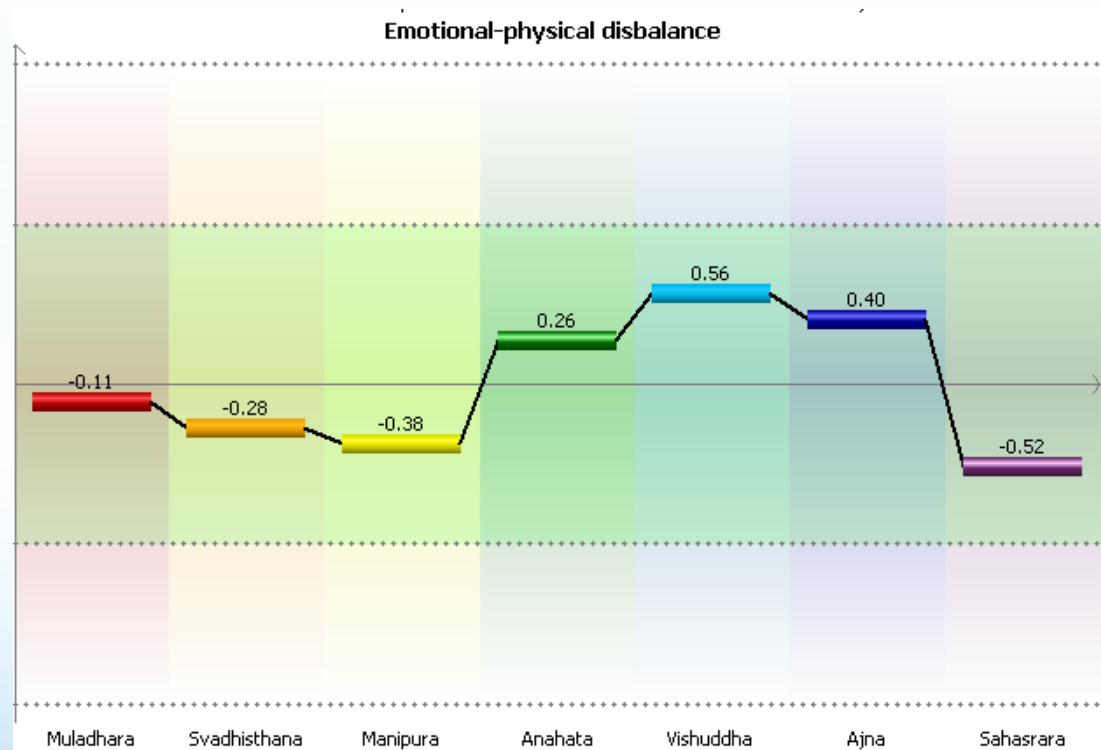

*This is the amount of energy the chakra is emitting*

- The green corridor is normal.
- Readings above the line are over active.
- Readings below the line are under active.
- Where the line is the highest this is the most active chakra and the colour of the person's Aura.

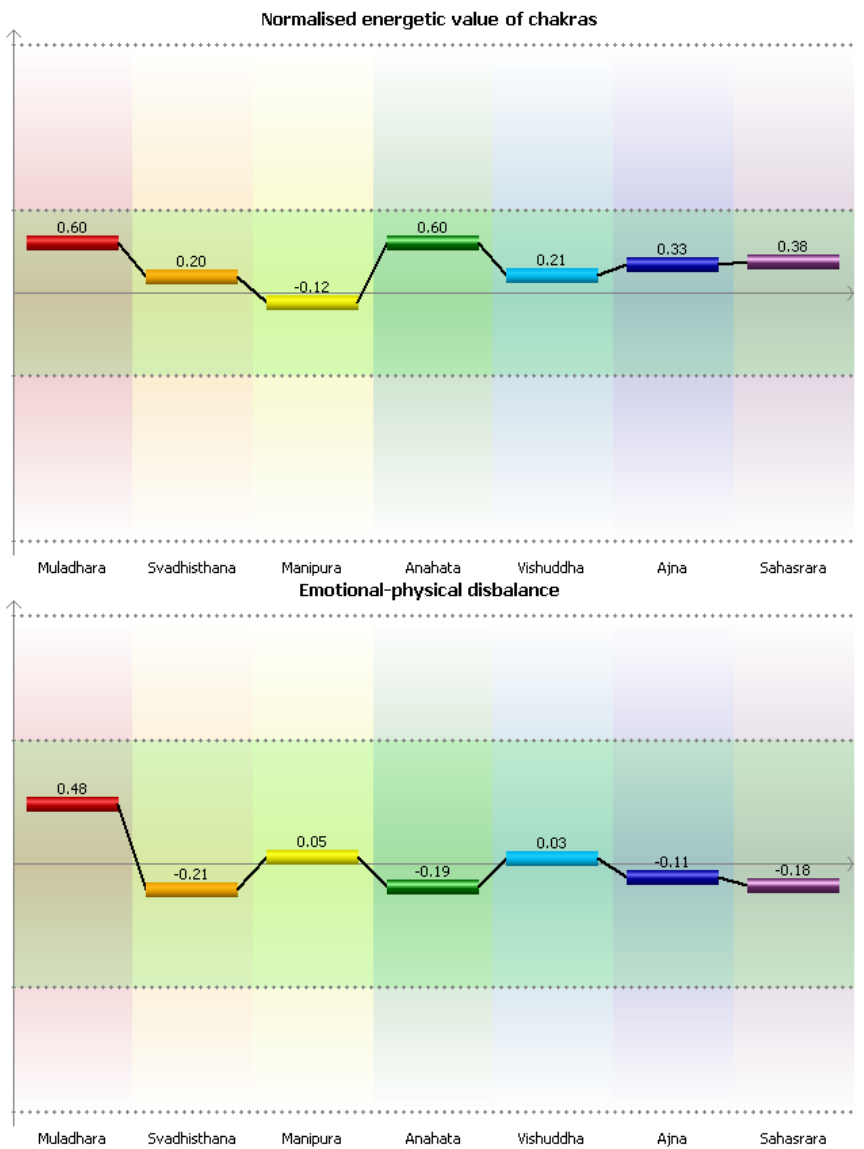

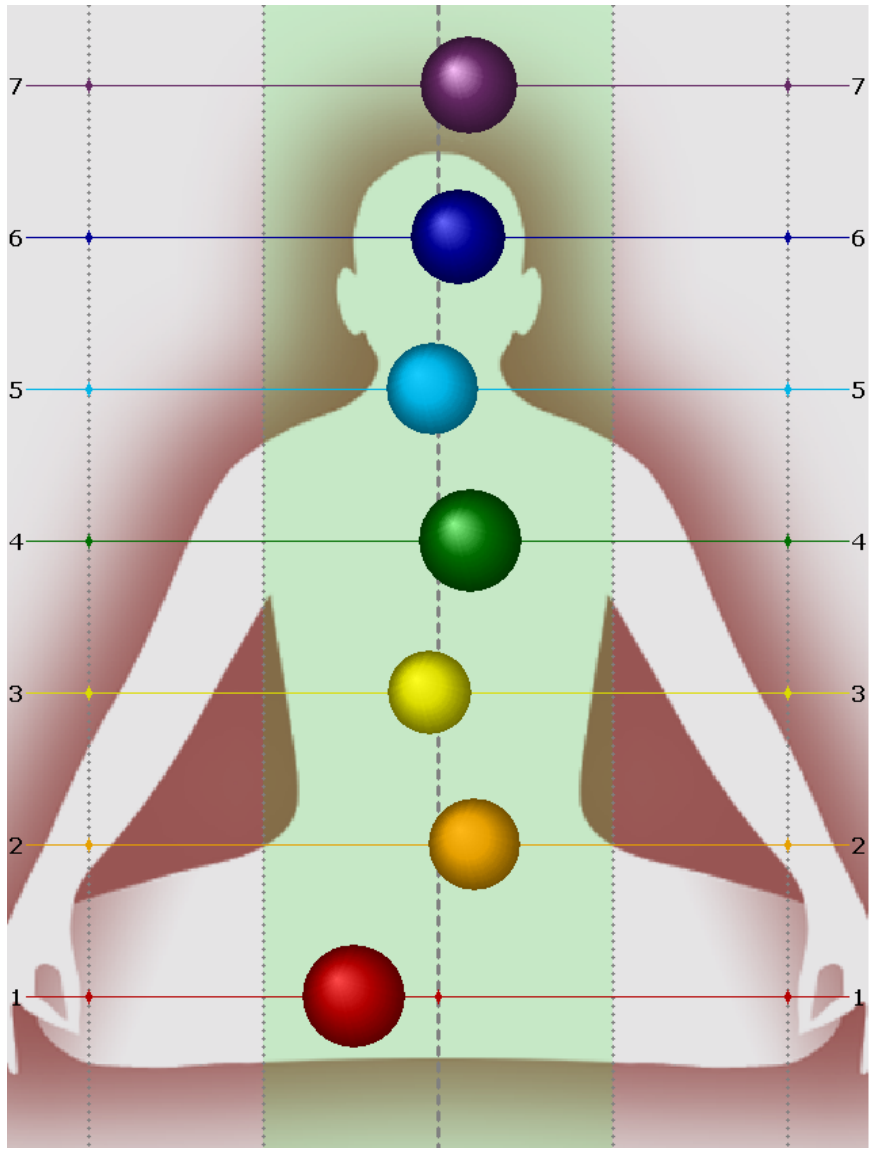

# Emotional and Physical imbalance of the Chakras

- Above the green line shows the psychological imbalance
- Below the green line shows the physical imbalance

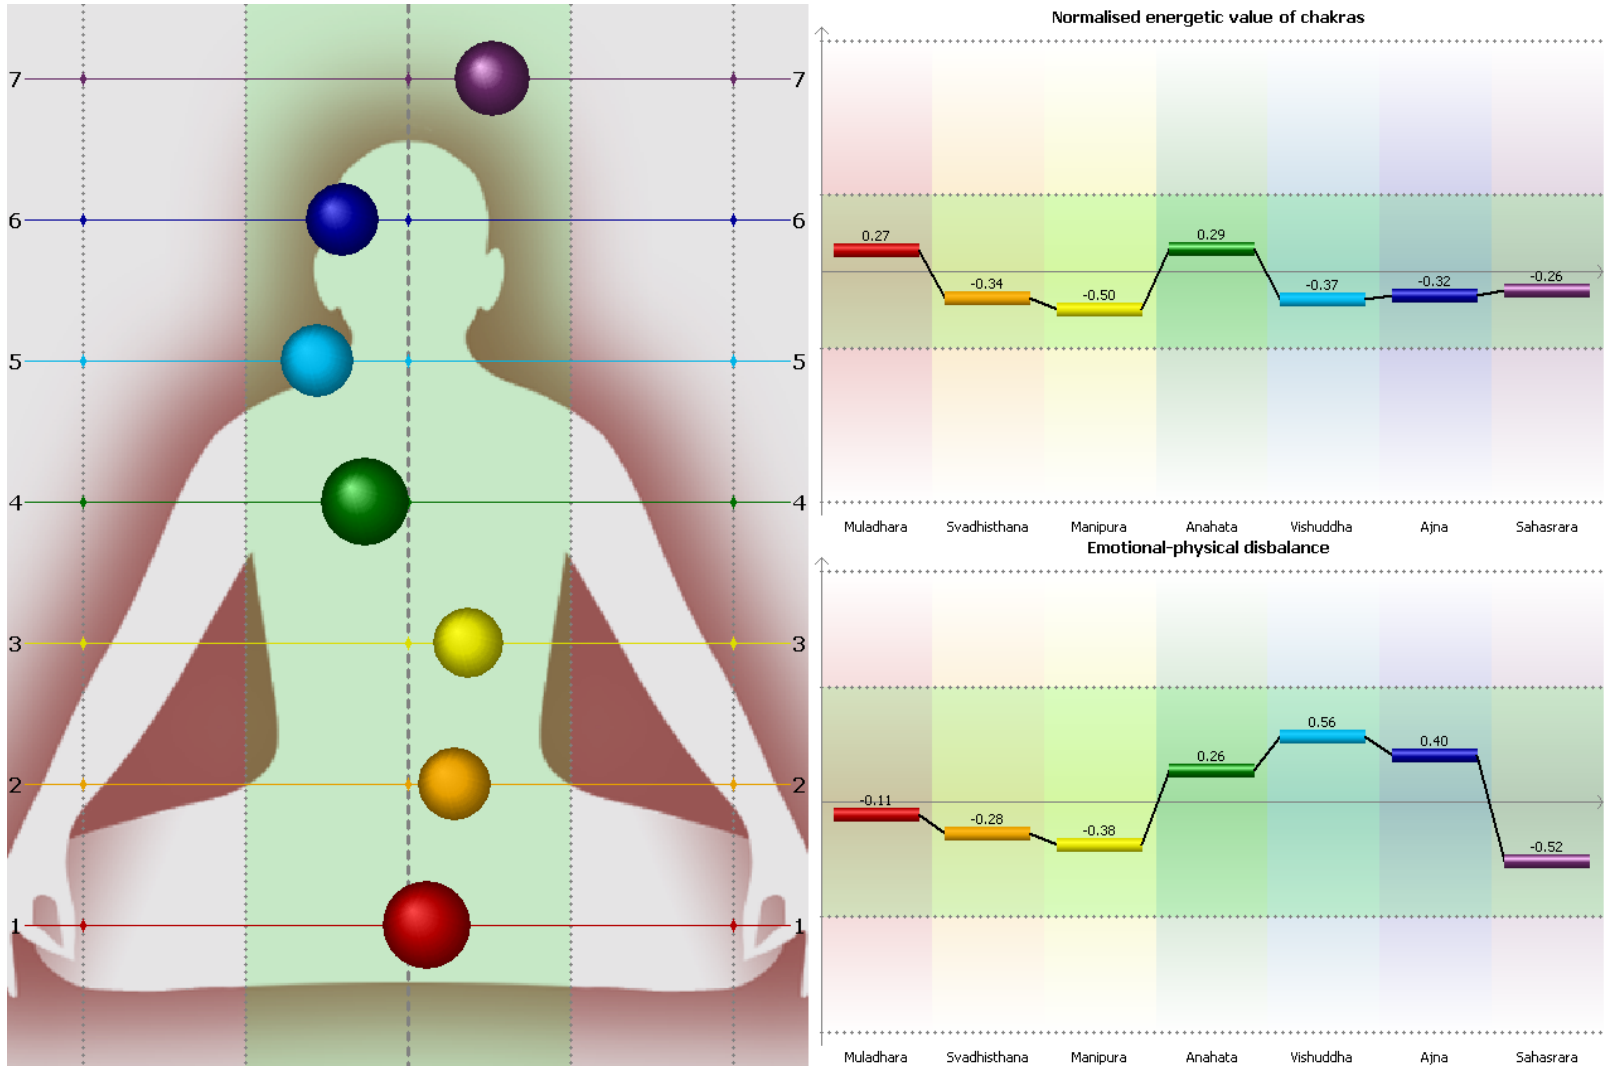

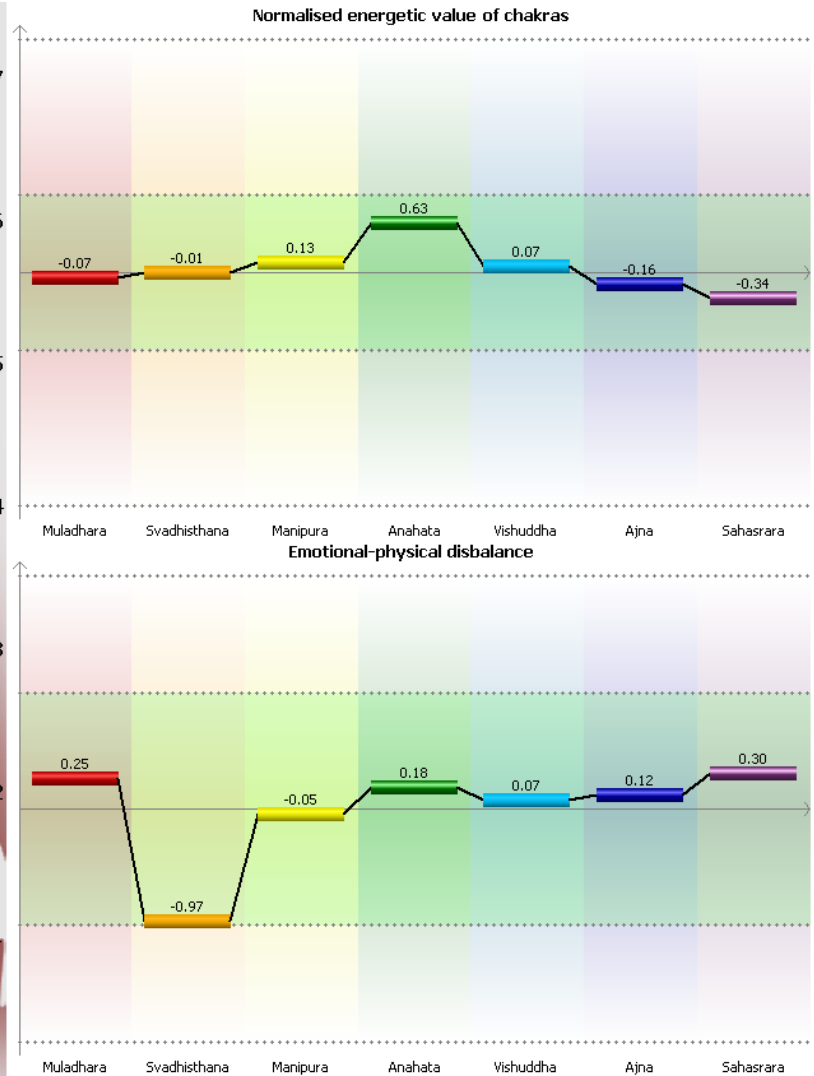

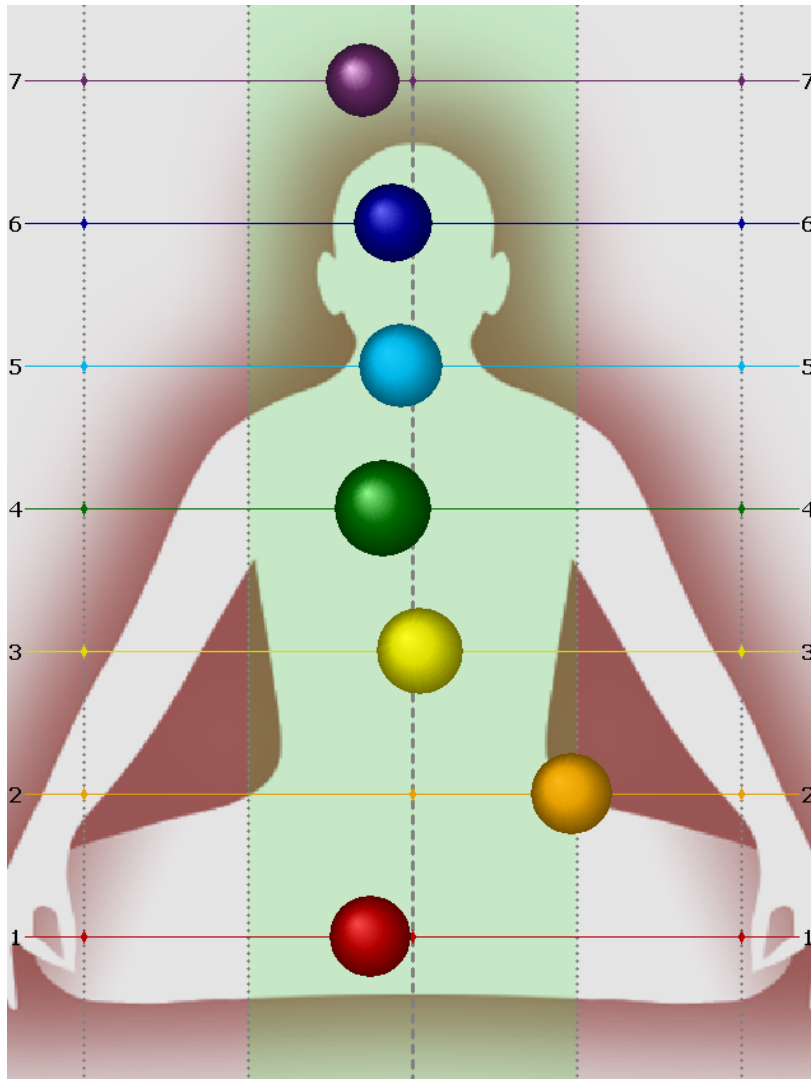

The following slides show  
progressive readings with and  
without the Orgone Pendant

The Orgone Pendant is  
proven to work!

*Can you and your family be without it?*
