

SCRATCH REMOVER

Removes scratches on painted and varnished surfaces

White color

Cream in tube

TYPE OF USE

MOTUL Scratch Remover removes superficial scratches on any painted or varnished surfaces: fairing of the bike, helmet,...etc, thanks to its micro-abrasive particles.

PERFORMANCE

Removes superficial scratches without leaving streaks.

Restores the gloss on paints and varnishes.

Suitable for all kind of painted or varnished materials commonly found on motorbikes: plastics, paints, metals ...

RECOMMENDATIONS

Pre-clean the surface with MOTUL Moto Wash.

Apply a dab of MOTUL Scratch Remover cream on a soft cloth and spread evenly throughout the scratch.

Let dry a few minutes and then polish with a soft cloth in a circular motion.

Use on cold surface only. Do not use under direct sunlight or on hot surfaces.

Not suitable for matte paints.

SECURITY

Refer to the MSDS sheet and the information mentioned on the tube.
