

How to Wrap your Knives for Mail-in Sharpening Service

Start with a sheet of parchment paper or newspaper

Place your knife at the bottom corner of your paper
(see picture reference)

Fold the corner over the knife

Fold the knife over once

Then fold over a second time

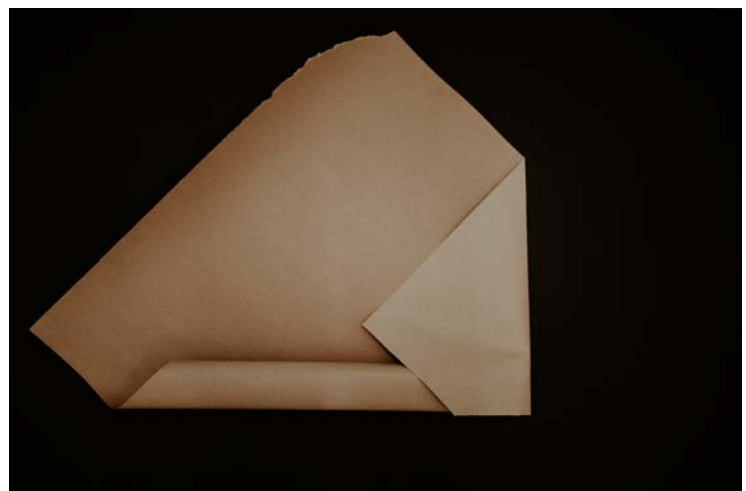

If you are sending in a second knife, place it on top of the folded knife, with the blades faces opposite directions

(do not exceed more than 3 knives per wrap)

Fold over two times, just like the first knife

Take the right corner and fold it over

Then take the left corner and fold it over

Roll it until it resembles a burrito

You've completed a proper knife wrap!
Please tape it shut so it does not come unraveled
during shipping!
