MARITIME FAK

The TacMed™ Maritime FAK is the chosen first aid kit of the United States Navy. The Maritime FAK meets the requirements of Combatant Craft Division (CCD) to offer a fully equipped medical kit capable of treating life-threatening injuries and hazards found in a maritime environments (as directed under DODI 1322.24). The Maritime FAK drybag is a waterproof (IP68) container with attributes specifically suited to maritime aid. It is positively buoyant, resealable, and made in a high-visibility orange to be located by crew easily. The Maritime FAK is Berry Compliant and compatible with most anti-pilferage seals.

PRODUCT FEATURES

- 1 Extruded polyurethane closure is both airtight and fully submersible.
- 2 4 D-rings that can be used as lash points.
