FOXTROT[®] DA LITTER

AN EFFECTIVE, COMPACT, AND EASY TO DEPLOY CASUALTY EVACUATION PLATFORM.

PRODUCT SPECIFICATIONS

PRODUCT #	 - F-LITC-DA-B BLACK	 - F-LITC-DA-T TAN	 - F-LITC-DA-RED RED
	 - F-LITC-DA-OD GREEN	 - F-LITC-DA-RO ORANGE	 - F-LITC-DA-A ACU
DIMENSIONS	In Carrier - 8"W x 22"L x 5.5"D 20.3cm W x 55.9cm L x 14cm D Open Litter - 18"W x 84"L 45.7cm W x 213.4cm L		
WEIGHT	85oz / 2410g	NSN	F-LITC-DA-T - 6530-01-571-5667

INTENDED USE

Rugged, semi-rigid casualty evacuation platform that is quick to deploy, easy to secure a casualty, and durable to withstand use over rough terrain.

FOXTROT® DA

The **Foxtrot® DA** Litter is a quick and easy to deploy casualty evacuation platform that is compact enough to accompany anyone on a military assault or long movement. The DA version of the Foxtrot® Litter features upgraded color-coded side release buckles for lightning-fast patient securement in high-risk casualty extraction scenarios while maintaining its durability, flexibility, and ability to maneuver through tight spaces. Casualties can be dragged or carried off target without excess time spent rigging and securing to eliminate the wait time for a conventional medical litter to be brought from the breach point or support vehicle.

PRODUCT FEATURES

- 1 LIGHTWEIGHT AND COMPACT STORAGE**
Weighing less than 5lbs when stored in its tactical carrier, it is easier to carry than a rigid litter system while being quickly opened for expedient casualty evacuations in a high stress environment.
- 2 CARRYING HANDLES**
8 integrated handles create multiple grab points around the litter for efficiently carrying or dragging a casualty, which is especially useful in narrow passages.
- 3 DRAG STRAP**
Rigged to the litter, the rapid deployable drag strap allows a single user to easily transport a casualty while keeping their hands free to manipulate their weapon.
- 4 COMPACT AND FLEXIBLE SIZE**
Its compact size and semi-rigid structure allow a casualty to be sat up to make tight turns on stairwells and hallways while being small enough for easy transport through narrow passages and walkways such as on aircraft, buses, and trains.
- 5 COLOR-CODED DUAL-ADJUST BUCKLES**
The quick secure straps with color-coded side release buckles are easily adjustable for rapid casualty securement being accessible for further treatment.

ADDITIONAL FEATURES

CARRYING CAPACITY
Carrying capacity of
400lbs/181kg
