# TACMED™ OPERATOR IFAK

The **TacMed™ Operator IFAK** contains the necessary equipment needed for effective treatment of traumatic injuries without taking up excess space. Its well laid-out interior and full-zip opening allow for rapid easy access to medical components. MOLLE straps on the back provide convenient mounting options, and the gripper elastic on the bottom of the pouch provides an extra place to store quick-access equipment such as your tourniquet.

## PRODUCT FEATURES

- 1** Hook & loop area for ID patches.
- 2** Compact size.
- 3** Interior reinforced webbing to securely hold contents.
