2.7oz / 77g

US PATENT/ 7,652,190 & 8,163,973 B2

INTENDED USE

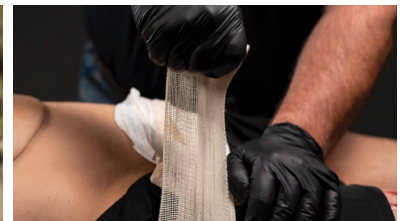

For treatment of moderate hemorrhage.

OLAES® HEMOSTATIC BANDAGE

The **OLAES® Hemostatic Bandage** combines the globally recognized OLAES® Modular Bandage with battle-tested HemCon® ChitoGauze® PRO, creating the most comprehensive trauma bandage for multiple injury profiles.

Having both a pressure bandage and hemostatic gauze in a single package streamlines your treatment process and saves space in your kit for additional medical items.

PRODUCT FEATURES

- 1 HEMOSTATIC GAUZE**
Stocked with 3"x12' of ChitoGauze® PRO hemostatic gauze, ideal for a variety of applications and wound surfaces.
- 2 TRUE PRESSURE CUP**
Generates focused pressure on the wound site to assist occluding damaged vessels. It can also serve as a rigid eye shield for ocular injuries per CoTCCC guidelines.
- 3 WOUND PAD**
Covers the injury site to assist with sustained bleeding control and keep the wound clear of debris. Its non-adherent compartment keeps gauze tucked neatly inside for rapid access during application.
- 4 HOOK & LOOP CONTROL STRIPS**
Built into the elastic wrap to prevent accidental unrolling during application.
- 5 ELASTIC WRAP**
Secures the gauze and wound pad to the injury site and assists in maintaining consistent applied pressure.
- 6 SECURING CLIP**
Locks the bandage into place to free up the user's hands to treat other injuries or casualties.
- 7 EASY-TEAR POINTS**
Intuitive, rapid access to the sterile bandage is achieved through multiple tear points indicated by red arrows at each package corner.

ADDITIONAL FEATURES

CoTCCC RECOMMENDED GAUZE

The included ChitoGauze® PRO is one of few CoTCCC recommended hemostatic dressings.

X-RAY DETECTABLE

Two X-Ray detectable strips are included in the ChitoGauze® PRO hemostatic gauze.

MATERIALS LIST

ABS, Cotton (8-Ply), Elastic (Latex-Free), Nylon, Polyester (Non-Woven), Polyethylene (PE), Polyethylene Terephthalate (PET), Rayon (Thermo-Bonded Filler)

THE AWARD WINNING OLAES® HEMOSTATIC BANDAGE

A combination of the the globally recognized **OLAES® Modular Bandage** with the battle tested hemostatic **HemCon® ChitoGauze® PRO** to create the most versatile and comprehensive trauma bandage for multiple injury profiles.

The convenience of having both products in a single kit item allows you to focus on treating your patient rather than having to locate and open multiple packages. Other hemostatic brands require the purchase of a separate trauma bandage.

Designed with direct input from the world's most experienced combat medics and first responders.
