# R-AID® KIT

The TacMed™ **R-AID®** Kit is ideally suited to work as an assault aid bag, vehicle bag, or combat lifesaver bag. All critical intervention items are loaded in the top flap of the bag for immediate access. The second main compartment contains items required for additional treatments and casualty packaging. The rear sleeve contains triage and casualty marking materials. The contents of the kit provide a trained individual with the capabilities of hemorrhage control, basic and advanced airway management, packaging of burns, treatment of penetrating chest trauma, splinting, treatment of eye injuries, and triage and casualty marking.

## PRODUCT FEATURES

- 1 Can be hung as a panel, slung over a shoulder like a messenger bag, or worn as a backpack.
