NICL

The **Non-Injured Complete Lower (NICL)** is a lower trainer specifically created to connect with any TacMed Simulation™ upper torso trainer for simulations not requiring injuries to the lower portion of the body. The NICL is constructed in the same manner as all TacMed Simulation™ trainers using state-of-the-art special effects materials and technologies to produce the most realistic looking and feeling product. The NICL has been designed specifically for use in tough outdoor terrains; it can be carried, dragged, and transported in a variety of vehicles and aircraft, and can withstand nearly any weather condition.

KEY BENEFITS

- ▶ Anodized aluminum chassis for strength, durability, and all-weather resistance
- ▶ Integrates securely with any TacMed Simulation™ upper unit
- ▶ High quality life-like silicone skin covers entire unit.
- ▶ Total weight and overall weight distribution are anatomically correct.
- ▶ Joints are totally enclosed in silicone for both realism and durability and allow a natural bend without folding, kinking or stretching
- ▶ Multi-step molding and casting process unites and bonds skin with core to minimize seams, and prevent separation and maintenance issues
- ▶ Created from a life cast to ensure maximum realism
- ▶ Solid urethane core integrates with steel joints and structural aluminum for added strength.
- ▶ Optional Interchangeable Priapism
- ▶ Water Resistant
- ▶ Easy to clean and maintain after use
