## Introducing the new BackBar family: BB, CL, and SL

Attitude is everything with bar design. That's why we've designed our latest range of bar fridges to make a statement.

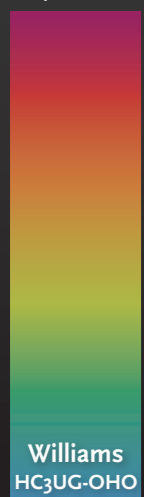

Each model contains cutting edge performance in a package designed to maximise storage volume, deliver superior ease of use, and present your drinks in the optimum light.

BB is your standard BackBar, but there's nothing standard about a fridge that makes such good use of the prime real estate you've created behind the bar. CL then fits under the counter or lowbar, while SL offers slimmer proportions to fit tighter spaces.

A completely consistent look is ensured – unless you don't want one. BackBar can be customised to almost any colour or design by expert custom refrigeration engineers at our New Zealand factory.

Regardless of your choice of model or finish, each BackBar consistently delivers the same high-performance attitude.

Annual Running Cost Comparison\*

### Cutting edge power efficiency

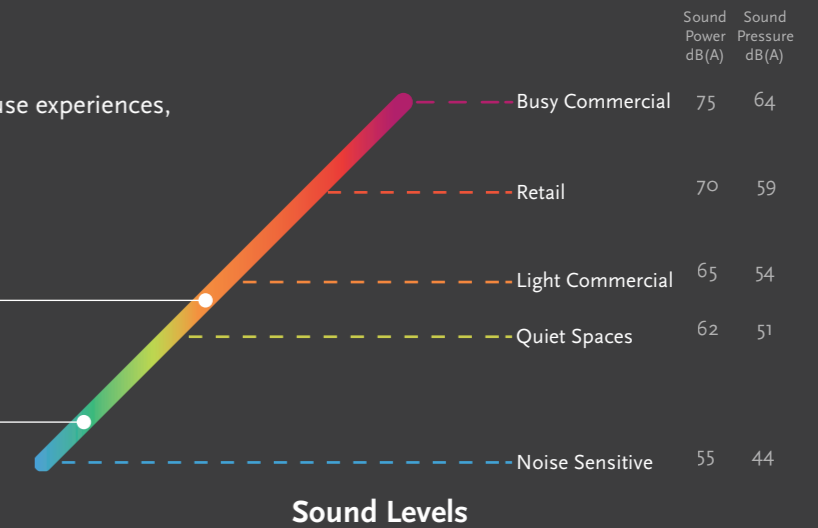

Expertly designed natural refrigerant technology ensures minimised carbon footprint and energy efficiency gains of up to 63% over the previous generation.

## Quiet running

BackBar is a name synonymous with quiet front-of-house experiences, and the BB, CL, and SL are no different.

SKOPE-connect™

## Unprecedented control

Hush the fan, schedule the lights, choose the optimum temperature for your product. Do it all at the touch of your smartphone with SKOPE-connect™.

Specialty cooling temperature pre-sets:

- Red Wine (15°C to 19°C)
- White Wine (8°C to 11°C)
- Sparkling Wine (7°C to 10°C)
- Beer – Ales/Lagers (0°C to 4°C)
- Beer – Stouts/Bitters (3°C to 6°C)
- Cold drinks (0°C to 4°C)
- Food Safe (1°C to 4°C)

## Strong technology & plenty of room – as standard

Retractable under-door locking tabs, SKOPE-connect™, dimmable LED lights, powder-coated exterior, 40°C room temperature capabilities and M1 storage for food and dairy.

All are included at no extra cost in cabinets with the height to handle two shelves of riesling bottles or three shelves of lager bottles.

Retractable tabs

Market-leading lighting

Maximise storage & display

Quicker, safer servicing

## Quicker, safer servicing

Interchangeable modular cartridge design means less downtime from quicker maintenance and repair.

\*Tested @30c kWh; based on GEMS data 22/11/2021.
