

# Tapas Showcase

Instruction manual

**Model:  
CP728-A**

## Safety Tips

- Position on a flat, stable surface.
- A service agent/qualified technician should carry out installation and any repairs if required. Do not remove any components or service panels on this product.
- Consult Local and National Standards to comply with the following:
  - Health and Safety at Work Legislation
  - Fire Precautions
  - Wiring Regulations
  - Building Regulations
- DO NOT use jet/pressure washers to clean the appliance.
- DO NOT use the appliance outside.
- DO NOT use this appliance to store medical supplies.
- DO NOT use electrical appliances inside the appliance (e.g. heaters, ice cream makers, etc.).
- DO NOT allow oil or fat to come into contact with the plastic components or door seal. Clean immediately if contact occurs.
- DO NOT store products on top of the appliance.
- Always carry, store and handle the appliance in a vertical position and move by holding the base of the appliance.
- Always switch off and disconnect the power supply to the unit before cleaning.
- Keep all packaging away from children. Dispose of the packaging in accordance with the regulations of local authorities.
- If the power cord is damaged, it must be replaced by a POLAR agent or a recommended qualified technician in order to avoid a hazard.

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience or knowledge, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Polar recommend that this appliance is PAT tested on an annual basis to ensure the product remains safe.

### Caution Risk of Fire

- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.

**Warning: Keep all ventilation openings clear of obstruction. Unit should not be boxed in without adequate ventilation.**

- **Warning:** Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.
- **Warning:** Do not damage the refrigerant circuit.
- **Warning:** Do not use electrical appliances inside the food storage compartments of the appliance, unless they are the type recommended by the manufacturer.

## Product Description

CP728-A - Polar Tapas Showcase

## Pack Contents

The following is included:

- Polar Tapas Showcase
- Instruction manual

POLAR prides itself on quality and service, ensuring that at the time of packaging the contents are supplied fully functional and free of damage.

Should you find any damage as a result of transit, please contact your POLAR dealer immediately.

## Installation

**Note: If the unit has not been stored or moved in an upright position, let it stand upright for approximately 12 hours before operation. If in doubt allow to stand.**

1. Remove the appliance from the packaging. Make sure that all protective plastic film and coatings are thoroughly removed from all surfaces.
2. Maintain a distance of 20cm (7 inches) between the unit and walls or other objects for ventilation.  
**NEVER LOCATE NEXT TO OR NEAR A HEAT SOURCE.**

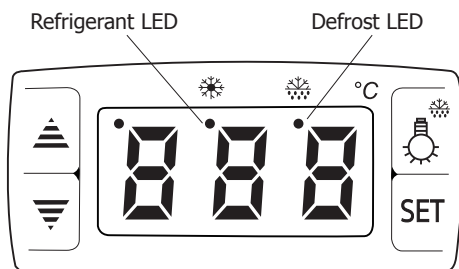

**Note: Before using the appliance for the first time, clean the interior with soapy water.**

## Operation

- This product is not intended for use as a storage cabinet, it is for daily display of Tapas and similar products. It should be cleared of food every day, then cleaned before further use.
- Insert the plug into the socket, turn on at the socket then press the product switch to on.
- After a few minutes check there is cold air being blown in to the Showcase before placing food inside.

### Control Panel

**Refrigerant LED:** During refrigeration, the LED is on. When the unit temperature is within set point the LED is off. **NOTE:** When first switched on refrigeration is delayed (approx 4 minutes) and the LED flashes.

**Defrost LED:** During defrosting, the LED is on. Before entering Defrost there is a short delay and the LED flashes.

### Turn On

1. Close the doors of the appliance.
2. Connect the appliance to a mains power supply.
3. Press ON/OFF switch located on rear (next to controller).

### Setting the Operating Temperature

1. Press the **SET** button. The display will flash.
2. Press the or buttons to display the required temperature.
3. Press the **SET** button to store the temperature.

### Light

Press the button to turn the light On or Off as required.

## Cleaning, Care & Maintenance

- **Take out all food in the cabinets and disconnect the appliance from the electricity.**
- Wait until the traces of ice on the evaporator have melted, then wipe inside to remove any water.
- Do not use abrasive cleaning agents. These can leave harmful residues.
- Clean the door seal with warm soapy water.
- Always wipe dry after cleaning.

## Troubleshooting

If your POLAR appliance develops a fault, please check the following table before making a call to the Helpline or your POLAR dealer.

Fault	Probable Cause	Solution
The appliance is not working	The unit is not switched on	Check the unit is plugged in correctly and switched on
	Plug and lead are damaged	Call POLAR agent or qualified Technician
	Fuse in the plug has blown	Replace the fuse
	Power supply	Check power supply
	Internal wiring fault	Call POLAR agent or qualified Technician
Poor refrigeration performance	High ambient temperature	Ventilate room or area around Showcase
	Poor ventilation	Increase air flow around Showcase
	Door seals not in place/worn	Replace door seals
	Too much food in the Showcase is preventing cold air circulating	Take out some food
	Condenser needs to be cleaned	Clean Condenser
Showcase is noisy when turned on	Showcase is not level	Adjust position to level
	Showcase is too close to a wall or other object	Move position

## Technical Specifications

Model	Voltage	Power	Current	Temperature Range	Refrigerant	Dimensions H x W x D mm	Weight
CP728-A	220-240V 50Hz	190W	1.4A	0°C ~ 12°C	R600a	265 x 1529 x 420	39.7kg

## Electrical Wiring

The plug is to be connected to a suitable mains socket.

POLAR appliances are wired as follows:

- Live wire (coloured brown) to terminal marked L
- Neutral wire (coloured blue) to terminal marked N
- Earth wire (coloured green/yellow) to terminal marked E

This appliance must be earthed.

If in doubt consult a qualified electrician.

Electrical isolation points must be kept clear of any obstructions. In the event of any emergency disconnection being required they must be readily accessible.

## Compliance

The product must not be disposed of as household waste. To help prevent possible harm to human health and/or the environment, the product must be disposed of in an approved and environmentally safe recycling process. For further information on how to dispose of this product correctly, contact the product supplier, or the local authority responsible for waste disposal in your area.

POLAR parts have undergone strict product testing in order to comply with regulatory standards and specifications set by international, independent, and federal authorities.

POLAR products have been approved to carry the following symbol:

**All rights reserved. No part of these instructions may be produced or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without the prior written permission of POLAR.**

**Every effort is made to ensure all details are correct at the time of going to press, however, POLAR reserve the right to change specifications without notice.**
