## Product Bulletin

### A1 Active Foam

#### Description:

A1 active foam is used in friction carwashes and self-serve wash scenarios. A1 has two functionalities- it is primarily a high-foaming surfactant to clean cars, and it is also used as a brush lubricant to ensure carwash brushes are kept clean during the wash process. A1 active foam is a superior high foaming, high active detergent. It penetrates road film and heavy soils, whilst being highly lubricous and free rinsing. A1 contains no phosphates and is biodegradable and environmentally-friendly.

#### Directions for Use:

A1 active foam is used through automation machinery. To achieve the desired dilution, the recommended range is between 1:50 and 1:150. To reach desired foaming effect, adjust air and water settings.

#### Technical Data

Form: Liquid  
Appearance: Blue liquid  
Boiling Point: 100°C  
Solubility in Water: Soluble  
Specific Gravity: 1.02 g/ml  
pH 9.5 - 10.5  
Flammability: Non flammable
