Shock absorbing tool lanyard with carabiner on one end and loop on the other end. Designed and tested to prevent falling objects and reduce the force your body sees if a drop occurs by absorbing the energy transmitted through the tool lanyard. By reducing the shock load this design prevents the tool from pulling the user down with it protecting those above as well as those below.

**Features:**

- Shock absorbing properties reduce the dynamic force on the body or other anchor point if drop occurs
- Durable 1680 denier polyester elastic blended webbing extends from 96cm - 122cm
- Low profile lightweight design reduces snag hazards and added weight
- Anodised aluminium alloy carabiner with captive eye
- Third party certified to a 10lbs (4.5kg) maximum capacity with 2:1 safety factor

## HEAVY DUTY T BOLT CLAMPS

Kale HD T-Bolt clamps are manufactured utilising TOX®-Clinching joints. A cold forming press technique that is more than 70% stronger than welding and superior to tab style mechanical locks.

**Additional design features include:**

- No welding and no contact corrosion points
- Hollow 'D' shape trunnions to reduce tensile force on the bolt and clinched joint
- A profiled bridge with extended tabs for secure attachment to the band without welding
- A high clamping force with low free torque value.

Available in 2 materials (W1 & W4) in sizes ranging from 17-19mm through to 239-252mm, typical applications include suction and pump hoses across a wide range of industries:

- Agriculture
- Automotive
- Marine
- Mining
- Plumbing
- OEMs.
