The Oil Factor	Bomar presents Coffee Green Oil, Cold Pressed. Harvested from the green coffee beans then cold pressed to deliver this deep rich green oil. Wild harvested in Brazil our coffee oil is becoming increasingly popular in cosmetic formulations for its stimulant ability. Caffeine in formulations, especially on the hair is known to build cell barriers & strengthen cell formation giving you stronger & shinier hair. Its high level of chromogenic acid is a super antioxidant, including plenty of phytosterols & a wealthy fatty acid profile both of which boost moisture retention & rapid skin penetration. The oil is widely used to aid damaged, wrinkled skin as it helps balance the moisture levels of the skin, so it is best applied directly to the skin or hair, however alternatively it is just as effective in the right formulation.
Functionality	Wild harvested in Brazil. Known to be an effective skin & hair cell strengthener. Gives the skin firmness & hair shine. Widely used on old & damaged skin & acts as an effective anti-inflammatory ingredient. Rich in antioxidants, phytosterols & a wealthy fatty acid profile.
