The Oil Factor	An oil that has saved many a whale life! Bomar presents Jjoba Seed Oil, Refined. Jjoba refined is waterlike (clear) & odourless designed for you to reap the benefits of Jjoba Oil but at the same time not have its natural golden colour affect your formulation colour. Jjoba itself was originally introduced into the market as a replacement to sperm whale oil. The incredible story of this oil is that the spectacular sperm whales were once harvested (killed) for its spermaceti wax content. The introduction of Jjoba established it carried similar, if not better properties, saving the lives of multiple whales. The oil is a non greasy lubricator; best served in hair & skin care products & more natural product ranges such as for babies. A super hair strengthener delivering shine. A superb emollient, the oil works perfectly on its own directly on the skin. So much so, research has established that Jjoba Oil absorbs so well it can reach the corneal layer via the follicle wall, oils do not absorb much better than this.
Functionality	One of the best skin absorbers, research has proved it can even reach the corneal layer. Rich in monounsaturated fatty acids. A low saponification value. A non greasy lubricator, served best on the skin & hair. A very good carrier oil to blend with other essential or carrier oils.
