

Chemical substances

Product	Caustic Soda Microprills
Valid until	31.12.2022

Nobian Caustic Soda Microprills is free of either of the substances listed below. These substances are neither used as raw material nor added intentionally during the whole manufacturing process of above-mentioned products. The product is produced and handled on dedicated production lines, hence cross-contamination with these substances is ruled out.

- 2-methyl-2H-isothiazol-3-one (MIT, CAS- number 2682-20-4)
- 2-Methyltetrahydrofuran
- 2-methylpropan-2-ol (t-butyl alcohol)
- Aldehydes and Chlorates
- Cyclopentyl methyl ether
- Ethylene oxide or derivatives thereof
- Fluoride, Iodine
- Glyfosat
- Melamine
- Mercury (Hg)
- Metal catalysts and reagents
- Polyperfluorates and derivatives thereof
- Quaternary ammonium compounds (QAC)
- Ethylenediaminetetraacetic acid (EDTA) and derived substances
- Synthetic or natural flavours, such as N-(2-methylcyclohexyl)-2,3,4,5,6-pentafluorobenzamide or trans-4,5-Epoxy-(E)-2-decenal
- Bisphenol A and Phthalates
- Brominated flame retardants (BFR)
- Pyrolisin or tropane alkaloids (atropine, scopolamine)
- Acrylamide
- Trans fatty acids
- Butylated hydroxytoluene (BHT) and Butylated hydroxyanisole (BHA)
- Volatile Organic Compounds (VOC)

Note
To the best of its knowledge, Nobian declares this declaration to accurately describe the product's physical, chemical and/or manufacturing process attributes. Nobian does not make any warranty as to the suitability of its products for any application. The manufacture of this product (incl raw materials, production process and final product) and sales are controlled under the certified Nobian ISO 9001 quality system.
