## Vegan and vegetarian food applications

<b>Product</b>	Caustic Soda Microprills
<b>Valid until</b>	31.12.2022

---

Nobian Caustic Soda Microprills complies with the definitions of Vegan / Vegetarian as proposed by the European Vegetarian Union EVU and as further specified as Criteria of the V-Label:

- Vegetarian Foods that are not products of animal origin, and in the manufacture, preparation, or treatment of which no ingredients (including additives, carriers, flavourings, enzymes and substances that are not additives but used in the same way and with the same purpose as processing aids) or processing aids of animal origin (processed or unprocessed) have been added or used intentionally, with the exception of milk, colostrum, birds' eggs, beeswax, honey and propolis, their constituents and products derived from them.
- Vegan Foods that are not products of animal origin, and in the manufacture, preparation, or treatment of which no ingredients (including additives, carriers, flavourings, enzymes and substances that are not additives but used in the same way and with the same purpose as processing aids) or processing aids of animal origin (processed or unprocessed) have been added or used intentionally.
- In the manufacture, preparation, treatment or placing on the market of foods that are labelled as vegetarian or vegan, appropriate precautions must be taken, to avoid cross-contamination with products that do not comply with the requirements of paragraphs 1 and 2. However, the presence of these cross-contaminations shall be allowed in foods that are labelled as vegetarian or vegan, provided that despite appropriate precautions such presence is technically unavoidable under good hygiene practice.

Materials of human or animal origin are not used in the production process as raw material or process aid and cross contamination with such materials is excluded. Nobian Caustic Soda Microprills is not tested on animals. Hence the product is suitable for application in Vegetarian and Vegan food products.

**Note**  
To the best of its knowledge, Nobian declares this declaration to accurately describe the product's physical, chemical and/or manufacturing process attributes. Nobian does not make any warranty as to the suitability of its products for any application. The manufacture of this product (incl raw materials, production process and final product) and sales are controlled under the certified Nobian ISO 9001 quality system.
