

CCT (Correlated Color Temperature)

CCT is also known as **Color Temperature**, describes the overall color appearance of a lamp or LED.

CCT is measured in **Kelvins (K)**.

- CCT describes the overall color tone of a white light source.

CCT Range

Warm White (More Yellow): **2700K & 3000K**

Soft White: **3500K**

Cool White (More Blue): **4000K**

Daylight: **5000K & 6500K**
