CHEF iQ[®]

MISSION

Inspiring you to discover your inner chef.

OUR PROMISE

Expanded Culinary Possibilities

We help discover new techniques, recipes, and confidence in the kitchen.

Better Cooking

We help you transform meals into masterpieces.

Memorable Meals

We guarantee meaningful and share-worthy results.

Designed with a full color TFT LCD screen for vivid detail and a capacitive touch interface for a user-friendly experience.

ADVANCED HARDWARE

PRESSURE RELEASE METHODS

Save presets from the app to your Smart Cooker™ for one-touch access to your favorite foods.

INTUITIVE SOFTWARE

INTEGRATED SMART SENSORS

Equipped with four built-in sensors to precisely measure weight, pressure, and temperature.

PRESS KIT

FEATURES

On-unit Presets

 100+ built-in presets and functions for virtually every cooking need.

Capacitive Touch Display

 LCD capacitive touch display responds to just a light touch.

Wi-Fi Enabled

 Pairing the Smart Cooker™ with the CHEF iQ® App unlocks a world of culinary possibilities.

6-Quart Capacity

 Spacious 6-quart nonstick cooking pot fits enough to feed a crowd.

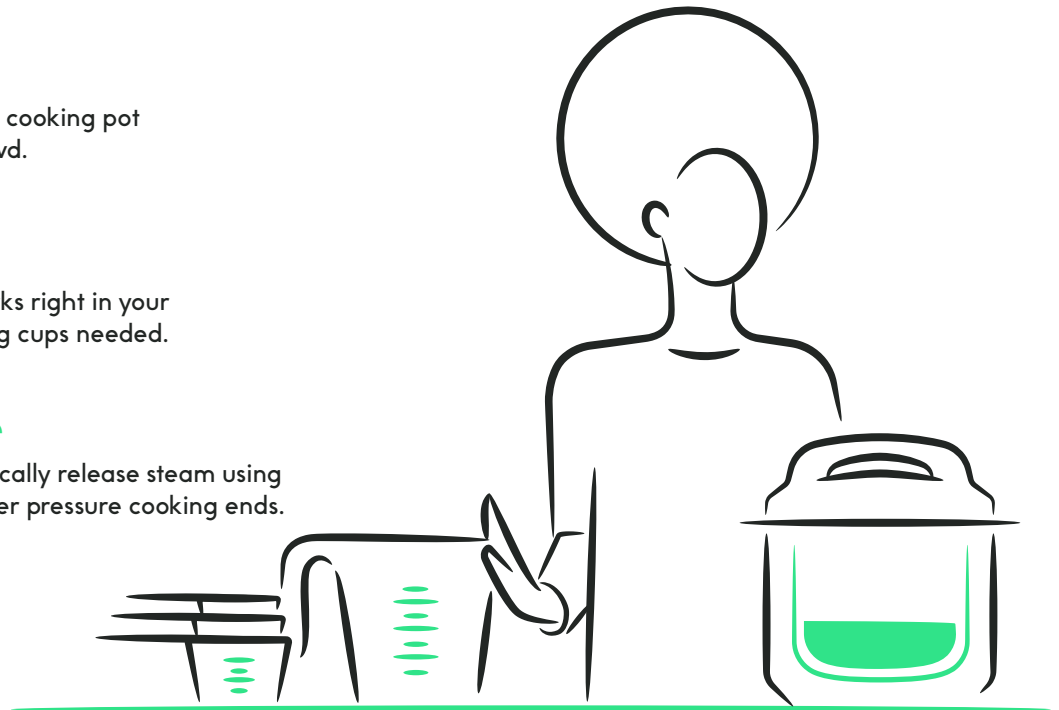

Integrated Scale

 Precise cooking scale works right in your cooking pot, no measuring cups needed.

Auto Pressure Release

 Programmed to automatically release steam using one of three methods after pressure cooking ends.

CHEF iQ®

PRESS KIT

FUNCTIONS

Pressure Cook

 Pressure cooking is a method of cooking in a sealed environment to trap in steam and cook faster and more evenly.

Slow Cook

 Set it and forget it – great for soups, chilis, stews, and having dinner ready when you walk in the door.

Steam

 Steaming requires no added fat and preserves key nutrients and full flavors for delicious, healthy meals.

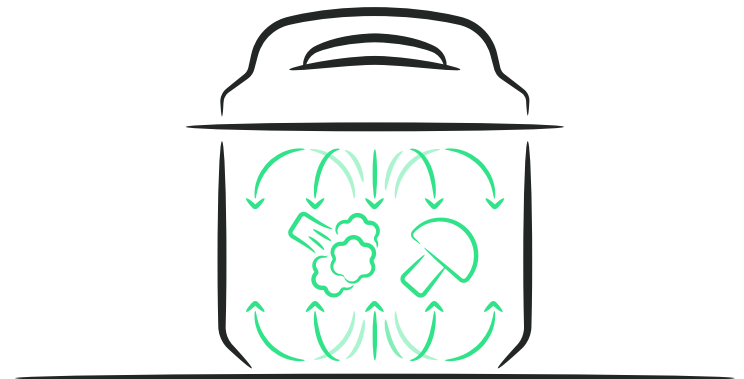

Sear/Sauté

 Sear foods right in the pot to boost flavor or use in place of a sauté pan to cook foods fast.

Ferment

 A simple and easy way to make delicious, homemade yogurt.

CHEF iQ®

Connect your Smart Cooker™ to the CHEF iQ® App via smart phone or tablet for a reimagined culinary experience.

AVAILABLE ON:

Become A Chef

 Cook delicious dishes right from the app with CHEF iQ's Guided Cooking, prep, and how-to videos.

Update Over the Air

 Your Smart Cooker™ will get smarter over time with over-the-air firmware updates.

Instant Calculations

 Tell us what you're cooking and the CHEF iQ® Calculator will tell you how to get there.

Save Your Favorites

 Save and share your favorite Guided Cooking recipes in the app for one-touch access to delicious meals.

Stay in the Know

 Keep tabs on your cooking with real-time notifications from the advanced Smart Bar™ technology.

CUSTOMERS

"Surprisingly love this way more than my Instant Pot"

My husband bought this for me as a surprise during their kickstarter. When I opened the box this past week, I was initially not thrilled because I felt like it did all the same stuff as my Instant Pot. I was wrong. For starters, this pressure cooker has a much sleeker design, and as this is the only kitchen appliance I keep on my counter, that is important to me.

- MommaBear

★★★★★

"Best thing ever"

Best pressure cooker ever. So easy to use and the app makes things so much easier. Cooks everything to perfection. You get everything you need with it. I took the pictures before I made my first meal because I was so impressed by it and even more impressed by the food it turns out.

- Eeyore

★★★★★

PRESS

hunker

The CHEF iQ[®] handles all of the guesswork, making your job as a home chef way less complicated. I've never used any other pressure cookers, but this one makes me feel confident that I won't over or under cook anything. It even tells me, repeatedly, if I'm in danger of burning my moods, which is appreciated.

STYLECASTER

I'll cut to the chase here—investing in my now beloved pressure cooker was literally one of the best moves (and purchases) I've ever made.

[READ THE ARTICLE](#)

This smart pressure cooker might be the Instant Pot killer. Watch out, Instant Pot — the CHEF iQ[®] Smart Cooker™ did not come to play.
