FARA is a compact electric heater with ceramic heating elements and a fan that combine to create an even and pleasant heat.

PRODUCT DIAGRAM:

PRODUCT SPECIFICATION:

BOLDR FARA Ceramic Heater

Weight: 680g

Dimensions: 13 x 12 x 20 cm

Advised Heater Area: up to 215 sqft (20 m²)*

PRODUCT INSTRUCTIONS:

1. Open the FARA packaging and remove and reserve the QR Code that leads to the Set Up Instructions.
2. Place the heater on a smooth and hard surface to ensure the product is stable.
3. Before plugging the heater in, ensure that the power switch on the back is set to a neutral 0 position.
4. Setting the heater to the **I** position will output 800W while setting the heater to the **II** switch position will output 1200W

INTENDED USE

Before using the product, the user should determine the suitability of the product for its intended use. The product is intended for use as a heating device for residential use as outlined in this document. Use outside of this scope is NOT covered by the warranty. FARA heaters are intended for use with a specific voltage which is region based. The required voltage is based on the delivery address.

If the heater is used in a different region than the delivery address there are risks of overheating and damage.

Region specific voltages:

USA: 110V/120V

Canada: 110V/120V

UK: 240V

Ireland: 230V

Europe: 230V

Australia: 230V/240V

New Zealand: 230V/240V

South Africa: 230V

Switzerland: 230V

Japan: 100V

Read all safety warnings and instructions.

Failure to follow the warnings and instructions may result in electric shock, fire and / or serious injury. Save all of the warnings and instructions for future reference.

CAUTION

When using the heater, leave a gap of a minimum of 50 cm. (20 inches) from the front of the grill to the nearest object or person. Do not touch the cover grill while the heater is operational or immediately after it has been used.

- CAUTION! At no point should the product be disassembled. Opening the product enclosure will violate the warranty and may lead to malfunction and danger to life.
- DO NOT operate the heater if the cord or plug is damaged or after the heater malfunctions, or if it has been dropped or damaged in any manner. Check each heater for damage before installation. Make sure that the heater itself, the plug and the cable are free of any visible signs of damage. If the cord is damaged the appliance must be sent for repair to the manufacturer (Baldr Group Ltd).

*Based on 2.4 m. (7.9 ft) ceiling height and A+ insulation class.

INTENDED USE

- This heater must only be used for the heating of people or buildings. The heater is not to be used by children or persons with reduced physical, sensory or mental capabilities, or lack of experience or knowledge. Children should be kept away and should not be left unsupervised around the unit.
- DO NOT COVER THE HEATER.
- DO NOT BLOCK AIR SUPPLY TO THE HEATER FROM THE BACK OR THE FRONT FOR THE RISK OF OVERHEATING.
- DO NOT USE IN BATHROOMS OR WET ENVIRONMENTS IN ORDER TO AVOID DAMAGE AND INJURY.
- DO NOT PLACE ANY FOREIGN OBJECT INSIDE OF THE HEATER OR ON THE GRILL OF THE HEATER.
- Children should use the heater under the supervision of adult.
- Do not use in environments that contain flammable gases or explosive materials.

CLEANING & MAINTENANCE:

The heater should regularly be cleaned to prevent dust build up which can lead to unpleasant smells.

- Before cleaning the heater, the heater should be fully unplugged.
- Use a microcloth to remove dust and surface dirt. Only spot clean with a damp cloth.
- Never submerge the heater or use alcohol based products on the heater.
- Ensure heater is fully dry before using it again, if spot cleaning with a damp cloth.
- When the heater is not being used for a prolonged period, please store it in a dust free and dry place.
- If the heater has not been used for a prolonged period of time, users may experience a temporary unpleasant smell resulting from dust build up.

MAINTENANCE & REPAIR

DO NOT attempt to repair or adjust any electrical or mechanical functions of this product. Doing so will void your warranty. Repairs must only be carried out by an authorised BOLDR service partner or the manufacturer (Baldr Group Ltd).

WARRANTY

Within the warranty period, repair or replacement due to defects in material and workmanship is completely free of charge; the costs are covered by the manufacturer on presentation of your invoice or delivery slip. A prerequisite for validity of the warranty is use of the device as intended with observance of the specified conditions of use. Any further warranty or claims are excluded. The warranty covers the repair or replacement of the defective product only. Any further claims or liability for consequential loss are excluded

WARRANTY RESTRICTION

The warranty will be void if the heater has been tampered with or opened in any way. Baldr Group Ltd will assume no responsibility for scratches on surface or frames after first use. Baldr Group Ltd cannot accept responsibility for damage, loss or injury caused by ingress of water or moisture, accidental damage, mishandling, external impact, adjustment by unauthorised personnel or failure to follow the correct maintenance and safety precautions as stated in the manual. If a fault or defect covered by the warranty occurs, the heating panel has to be sent to an authorised service partner or the manufacturer together with the invoice or original delivery note. If sending by carrier the product should be properly packaged and proof of purchase must be stated.

DISPOSAL

- The devices should not be disposed of with other household waste at the end of its working life. Household users should contact either the retailer where they purchased this product for proper disposal or recycle them through the local return system. For further information contact your municipal waste management.
