

PICTURE HANGING RAIL SYSTEMS

Product Information and Technical Specifications

1 Introduction

We supply five contemporary picture hanging rail systems to hang your artwork and picture professionally and safely.

MINI Rail System (20kg): A very thin and sleek rail, especially popular for private homes. Allows you to hang pictures up to 20kg. Supplied in 2m lengths, with a very slim 17mm x 11.5mm cross section

PRO Rail System (30kg): Our best selling rail system, installed in offices, businesses, galleries and homes. Allows you to hang pictures up to 30kg. Supplied in 2m lengths, with a slim 23mm x 12mm cross section

GALLERY Picture Hanging Rail System For Walls (50kg): Our strongest rail system, for use in galleries or where you need to hang very large/heavy pictures up to 50kg.

TOP Picture Hanging Rail System For Ceilings (15kg): The rail can be installed on a wooden or concrete ceiling, or used as window display system for shops, to hang lightweight pictures up to 15kg.

CEILING Picture Hanging Rail System For Ceilings (20kg): The CEILING rail is the only rail in the world which can be attached to the ceiling with clips. Can be easily installed on a wooden or concrete ceiling, or used as window display system for shops, to hang pictures up to 20kg.

Accessories: The rail systems come with vertical hangers and hooks to allow you to:

- safely hang your pictures
- change pictures with no holes in your walls
- easily make adjustments to ensure all picture are perfectly level/aligned, without new holes in the wall
- additional security hooks are available to deter theft of artwork in public spaces
