

Squamish is getting a health boost

Davies Home Healthcare is excited to be part of this vibrant community.

Davies has been serving the North Shore Community for over 45 years. What started as a small Pharmacy in North Vancouver in 1974, has evolved over the past two decades and is now opening in Squamish, to better serve the growing Sea-to-Sky corridor.

Davies specializes in providing Durable Medical Equipment (DME) and services. You'll find a wide range of products for injury recovery such as: kinesiology tape, cryo-cuffs, bracing, crutches, canes, walkers, wheelchairs, prescription compression stockings and more. To top things off, they deliver and provide installations too!

Their knowledgeable team has over 80 years of experience which represents the best in class for medical equipment professionals. No matter who you interact with on the team, you will be taken

care of. "We strive to build our reputation on delivering the highest standards of client service," notes local Chris Friesen, a 17 year member of the Davies team. Chris will lead this store from the new location.

Services include all aspects from bathroom & bedroom safety, age-in-place equipment, ADA compliant renovations, hospital beds, lifts, and much more. "Our commitment to aiding in quality of life has been a longstanding key pillar in our company mission statement." Davies Home Healthcare is 100% locally owned and operated. Parm Johal, owner of Davies, who started out in Squamish in 1986 said,

"We identified the need in this fast-growing market for a service like ours to provide quick, efficient, local solutions to the many age groups and their families in the Sea to Sky community."

The opening of Davies Home Healthcare in Squamish is a monumental milestone for the Davies team and a return to Parm's own community roots. "Please join us for our Grand Opening on Tuesday, July 14, 2020."

Offering the same brand of personal service since the beginning of time... well since 1973 serving Squamish, Whistler Pemberton
