## User Manual

Thanks for purchasing EBL product  
For safety purpose, please read the manual carefully before using.

### ■ General Information

▶ Detailed instruction is provided in this manual (The charger's function, safety usage ways and notices.)

### ■ Product Overview

- ▶ Upgraded charger, comes with USB Port, much convenient for travel usage.
- ▶ Individual 4 Bay charger which could charge 1/2/3/4 AA AAA Ni-MH Ni-CD rechargeable batteries.
- ▶ This charger adopts MCU control technology, providing constant current & voltage while working.

## ■ Specification

- ▶ Input: 5V 1A
- ▶ Output: AA/AAA 1.2V 4\*250mA(Max)
- ▶ No Load Power Consumption: 0.5W Max
- ▶ Full Load Power Consumption: 5W Max
- ▶ Battery Charging Rate  $\cong$  80%

## ■ Environment Condition

- ▶ Using Temperature: 0~35 C ; Humidity  $\leq$ 95%
- ▶ Storage Temperature: -20 C ~ 50 C ; Humidity  $\leq$ 60%
- ▶ Working Temperature:
- ▶ Surface temperature of charger  $\leq$ 60 C
- ▶ Surface temperature of battery  $\leq$ 50 C

## ■ Using Instruction

- ▶ Place the battery into the charger correctly by making sure the +/- pole of the battery is corresponding to the +/- pole of the charger.
- ▶ The charger can freely charge 1/2/3/4 AA AAA Ni-MH Ni-CD rechargeable batteries, support to charge battery by even and uneven.
- ▶ Smart indicator show the charging progress:  
Power on - GREEN; Charging - RED; Fully charged - GREEN

### Cautions

- ▶ If the indicator does not light on when installed the battery into the charger, please check if the battery is placed correctly and if the battery is absolute 0 Volt. (0 Volt means bad battery)
- ▶ New battery will reach peak performance after 3-5 times charge & discharge cycle.
- ▶ Battery will lost part of capacity after not being used more than one month, please fully charged the battery before using.

- ▶ It is normal phenomenon that the battery is warmer than room temperature while charging, its temperature will decrease to normal after fully charged.
- ▶ Children should not use the charger without adult's supervision.
- ▶ Please using the battery when the temperature is between 0 C and 35 C .
- ▶ Cutting off the power supply when the charger finished its work.

## ■ Warning

- ▶ The charger can only work for 1.2V AA, AAA Ni-MH Ni-CD rechargeable batteries, charging other types of battery may cause explosion, battery broken, leakage, personal injury or damage to property.
- ▶ It may cause electric shock hazard if using the charger incorrectly.
- ▶ Please using the charger indoor only and keep it far away from moist and heat.
- ▶ Please place the charger under safety place where the children can not reach up to.

## ■ Size & Weight

Size	4.5*3.03*1.10 inch
Weight	2.75±0.17 ounces / 78g±5g

## ■ Warranty from EBL

- ▶ 30 days worry-free money back and one year limited warranty.
