

U-Mark's xylene-free markers have become a standard in factories all over the world for witness marking of parts, quality control and product identification. **greenlabel**[®] liquid paint technology combines safety with dependable industrial performance: approximately 30 second dry time, excellent resistance to water, weather, industrial oils and solvents. Four marker styles for a variety of applications.

A3 Extra Fine Tip Paint Marker

- A10 combines the efficiency and economy preferred by high volume industrial users by providing consistent performance and excellent value.
- Heavy duty tip is made to withstand repetitive industrial applications such as witness marks and dots.
- Press-tip valve regulates paint flow and provides smooth paint flow.
