DEFOAMER MS-D

OVERVIEW

DEFOAMER MS-D is a high performance antifoam agent designed for tankside addition in metalworking fluid systems.

FEATURES & BENEFITS

DEFOAMER MS-D is completely water-dispersible and will not adhere to metal surfaces. The use of this product will not impair subsequent finishing operations such as painting or plating

MIXING

Add between 1 and 2 fluid ounces DEFOAMER MS-D for each 100 gallons of fluid in system.

For best results, dilute into 1 pint of water before adding to sump.

Add slowly into an area of high coolant flow for best dispersion.

TYPICAL PROPERTIES

Appearance - Concentrate Odor Specific Gravity @ 60°F Lbs/Gallon Flash point, PMCC Translucent, off-white liquid
Essentially odorless
1.03 - 1.07
8.5 - 9.0
