

AYMÉIR™ COLLAVYTE+

PHOTOAGING :

The Other Kind of Aging That You May Not Know

Photoaging is premature aging of the skin caused by repeated exposure to the sun that emits ultraviolet radiation (UV). Chronological skin aging is unavoidable but photoaging will accelerate the process. Unfortunately, UV rays are around us at all times even when the sun goes down. Clinical studies showed that UV exposure is responsible for 80% of visible facial aging signs. Hence, there are some people will always put on sunscreen before leaving the house.

Signs of Photoaging

Fine lines & wrinkles

Rough skin

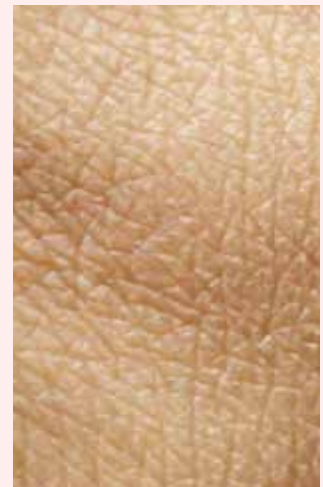

Dark spots

Uneven skin tone

Sagging skin

Dry skin

Enlarged pores

The Birth of AYMÉIR COLLAVYTE⁺

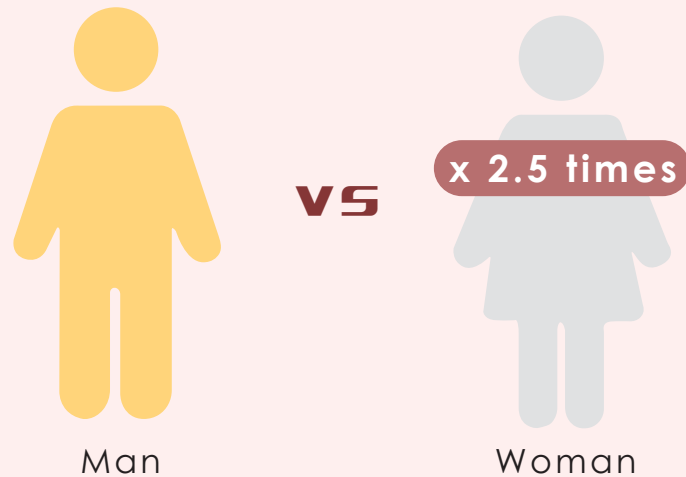

There is no escaping the passage of time – you will get older and your body will age. The presence of natural sunlight will only speed up the aging process. We cannot control time and weather but we can take preventive measures to delay the effects of aging.

When the Research & Development Team behind 27 Marketing Sdn. Bhd. is searching for the best solution, it was discovered that the key to combat the signs of aging is by restoring collagen in the body and boosting the immune system with high antioxidants.

After lots of in-depth research conducted, it finally leads to the creation of AYMÉIR COLLAVYTE⁺.

Women tend to lose collagen Twice as fast as men

Collagen is the one of the most important and abundance protein in the human skin. It helps to form a fibrous network of cells to strengthen the skin while benefiting its elasticity and hydration status. Besides, collagen can delay the onset of aging.

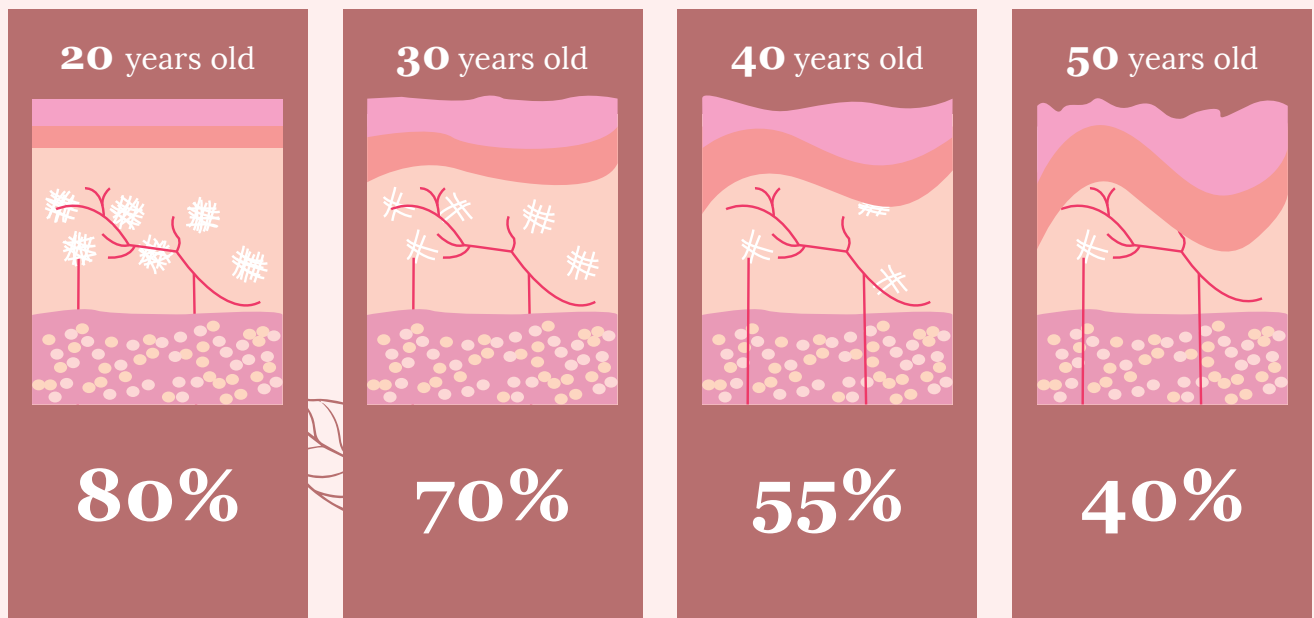

As we age, our body changes and produces less collagen. Unfortunately for women, menstruation and pregnancy may speed up the aging process.

The loss of collagen can cause the integrity of the skin to decline. Hence, in order to delay aging, it is important to upkeep the amount of collagen in the body

Collagen Loss Is A Sign Of Aging

As we grow older, our skin collagen reduces, causing us to look older.

Collagen content in different stage of age

Time flies, but leaves its shadow behind.

As we age, our body loses collagen and it reflects on our physical appearance.

AYMÉIR COLLAVYTE⁺

5-in-1 Collagen Tripeptide Nutrition Beauty Drink

Collagen

Radiant

Hydration

Anti-oxidation

Whitening & UV Protection

6 Prime Reasons for choosing AYMÉIR COLLAVYTE⁺

- 1 : All-in-One Nourishing & Beauty Product
- 2 : Smaller Molecules for Easy Absorption
- 3 : Core Ingredients Imported from 4 Countries
- 4 : Low Calorie: Worries No More
- 5 : Powder Form, can be Consumed Directly
- 6 : Acceptable Taste by All

1 : All-in-One Nourishing & Beauty Product

RM220

Dislike having bottles of supplement?

COLLA VYTE has it all in One sachet, ready to offer you the supple and radiant skin that you always longed for.

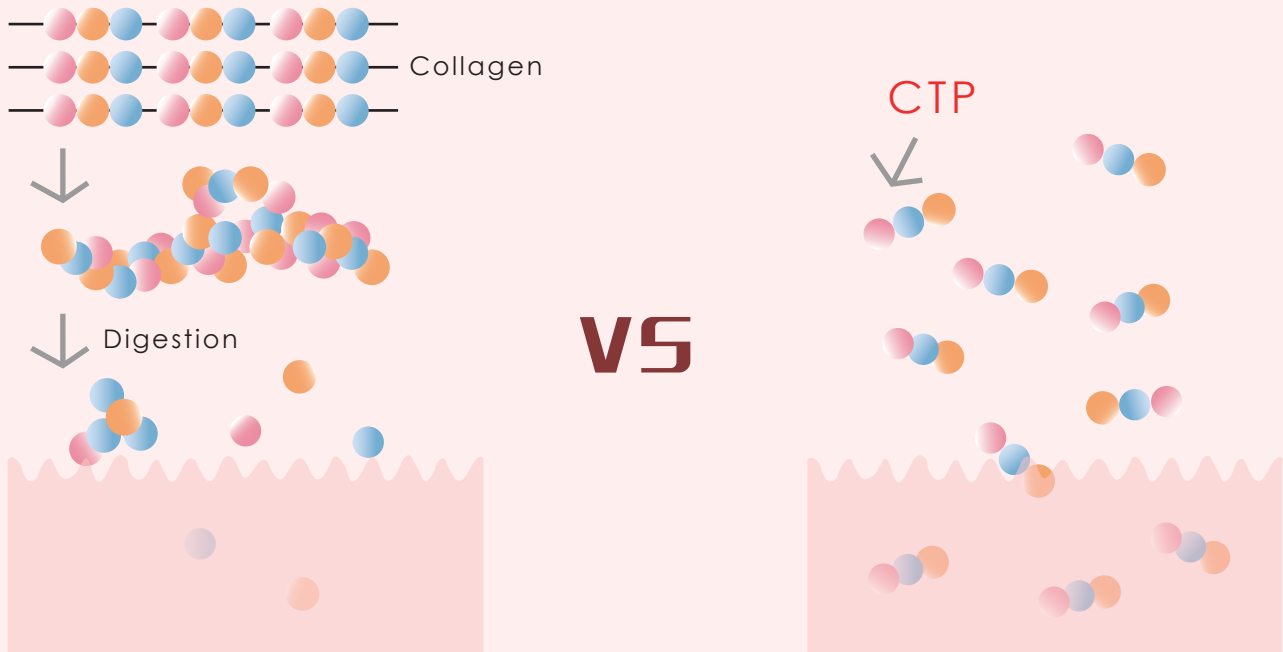

COLLA VYTE⁺ 5 Main Functions

- Radiant
- Collagen
- Hydration
- Anti-oxidation
- Whitening & UV Protection

2 : Smaller Molecules for Easy Absorption

COLLAVYTE⁺ uses collagen tripeptide (CTP) from Korea that has the minimum unit of collagen in the world, sized 1/1000 of collagen.

Collagen Tripeptide is 6 times more expensive than Conventional Collagen

With patented technology, the derived CTP is almost similar to human collagen. Due to small molecular size, CTP can be easily and rapidly absorbed by the body. Our patented collagen has higher CTP and GPH compared to other types of collagen. Hence, it is beyond doubt that COLLAVYTE is incomparable in terms of functionality and beauty efficacy.

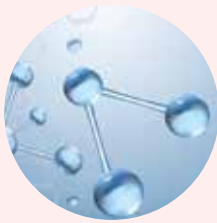

3 : Core Ingredients Imported from 4 Countries

Strict selection of patented ingredients with high efficacy from 4 different reputable countries.

Why patented ingredients?

Patented ingredients are included because their effectiveness are supported by lots of clinical research.

Korea Imported

Collagen Tripeptide

N-Acetylglucosamine

France Imported

Wheat Protein

Muskmelon Extract

Israel Imported

White Tomato

Spain Imported

Pomegranate

4 : Low Calorie: Worries No More

Will you gain weight while replenishing your collagen storage?

COLLAVYTE⁺ is one of the lowest calories collagen nutrition drink in the market, with only 10 kcal.

5 : Powder Form, can be Consumed Directly

Liquid Form

High calorie
Difficult to store once opened

Powder Form

Need to dilute in water for absorption to take place

COLLAVYTE⁺ **WIN**

Can be consumed directly for immediate absorption

Collagen supplements that commonly available in the market are liquid collagen and collagen powder. Liquid collagen may have more additives in order to maintain the quality for a longer period.

Compare with normal collagen powder that requires to mix with water prior consuming, AYMEIR COLLAVYTE⁺ which is in superfine powder form can be consumed directly without mixing with water.

6 : Acceptable Taste by All

Fruity Taste

Dislike the flavour of collagen drink?

After lots of survey and research were conducted, the flavour for our Collagen Tripeptide Nutrition Beauty Drink COLLAVYTE⁺ is concluded – a mild, fruity taste that is acceptable by most women.

Strict Selection of Active Ingredients

Combination of Nutrition with Science
Ingestion of A Complete Beauty Essence In One Go

Core Ingredients

COLLAGEN TRIPEPTIDE (CTP)
from Korea

WHEAT PROTEIN EXTRACT
from France

MUSKMELON
from France

POMEGRANATE EXTRACT
from Spain

WHITE TOMATO EXTRACT
from Israel

N-ACETYLGLUCOSAMINE (NAG)
from Korea

Other Ingredients

Japanese Torula Yeast Extract

Vitamin C

Xylitol & Oligosaccharides

1st CORE Ingredient : COLLAGEN TRIPEPTIDE (CTP) from KOREA

Korea Patented Enzymatic Hydrolysis Technology

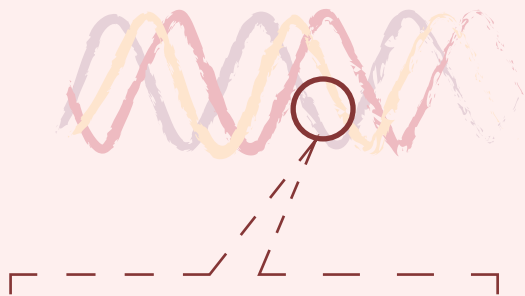

- ✓ Smallest unit of collagen with only 3 amino acids, sized 1/1000 of collagen
- ✓ Can be absorbed more effectively than conventional collagen
- ✓ Able to reach higher plasma levels after the oral administration

Benefits

- Promotes normal collagen formation
- Anti-inflammation
- Boasts immune system
- Improves skin hydration
- Whitening
- Wrinkle Refinement

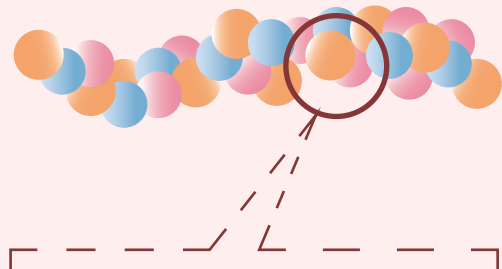

COLLAGEN TRIPEPTIDE (CTP)

Collagen Molecules

Amino acids approx.
3,000 pcs

General Collagen Peptide

Amino acids approx.
30 - 100 pcs

Collagen Tripeptide

Amino acids approx.
3 pcs

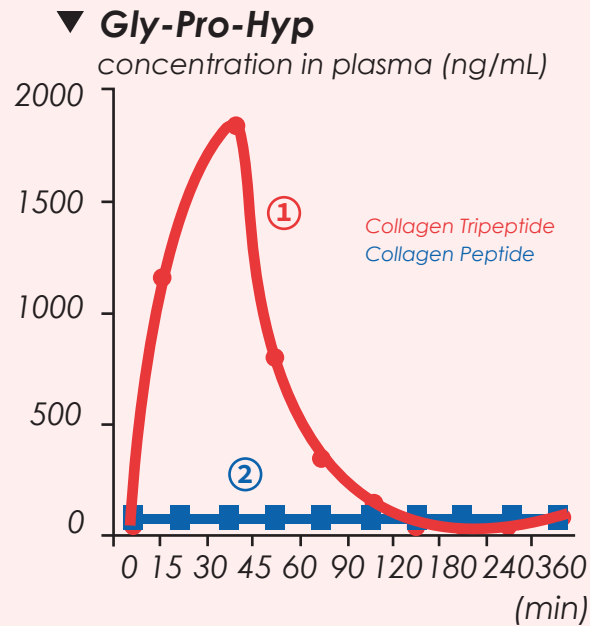

WIN

	Collagen	Collagen Peptide	Collagen Tripeptide
Molecular weight	> 3,000 Da	1,000 Da	< 500 Da
Absorption to skin	> 2 Hours	2 Hours	30 Minutes
Digestive Absorption	Very Little	Little	Very Easy
GPH Amount	0%	0%	> 3.2%

** GPH is major amino acid of collagen composition. (G:Glycin/P:Proline/H:Hydroxyproline)

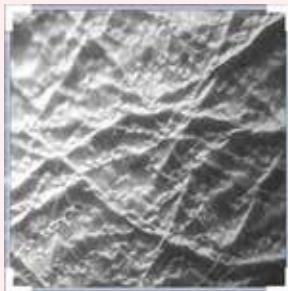

The Proof

Higher and faster absorption of collagen tripeptide than collagen peptide.

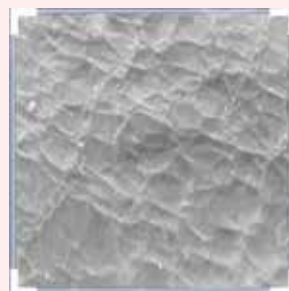

Daily collagen tripeptide supplementation improves skin hydration and elasticity in 12 weeks.

2nd CORE Ingredient : **WHEAT PROTEIN & MUSKMELON EXTRACT** from France

First Orally Effective SOD Supplement

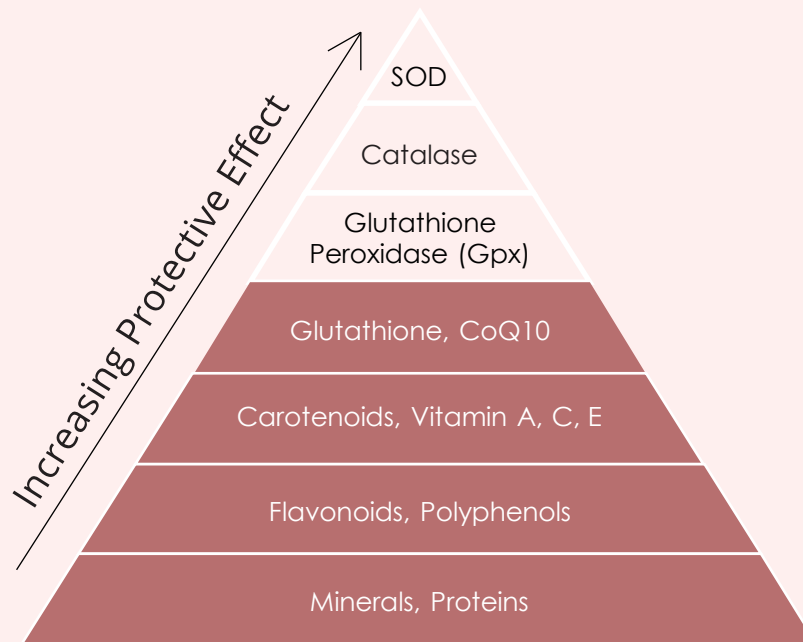

- ✓ SOD content is 7 times more than classic melon
- ✓ Clinically proven being able to withstand stomach acids and digestive enzymes, optimizes the uptake of SOD in the small intestine
- ✓ Is granted patent in America, Europe and Japan
- ✓ Capable of activating the most powerful antioxidants known - the body's own internal antioxidant defense system

Benefits

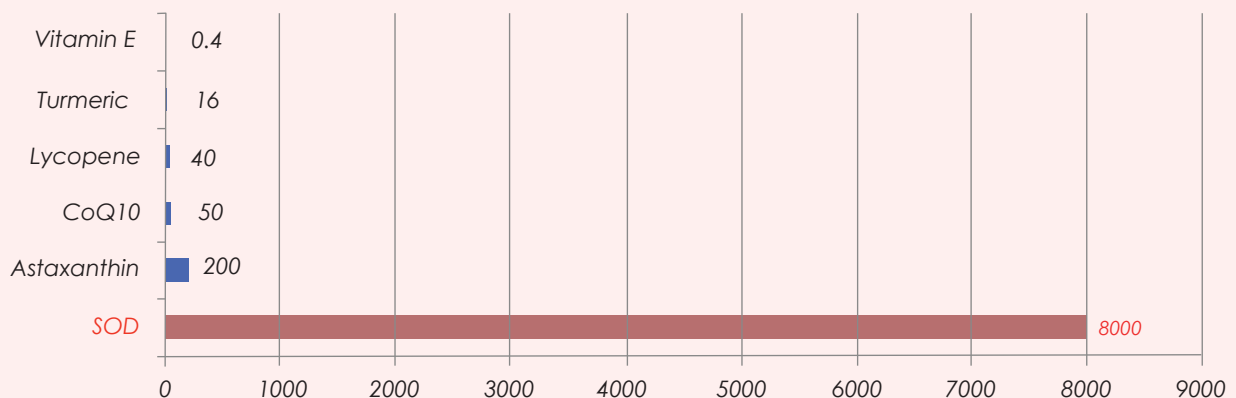

- Promotes innate cellular idefense system
- UV protection
- Antioxidant
- Promotes heart health

Activates the most powerful antioxidants known - the body's own internal antioxidant defense system, including superoxide dismutase (SOD), catalase and Glutathione Peroxidase (Gpx).

Comparison of capacity based on Vitamin C

Comparison of Antioxidant Level:

Rare Melon from France = 8000 times more than Vitamin C

CoQ10 = 50 times more than Vitamin C

**Title: Compare Oxidation Reaction between Conventional
Melon & Rare Melon from France**

Conventional melon is 3 to 4 times faster to get oxidized.

Conventional Melon

Melon Glisodin

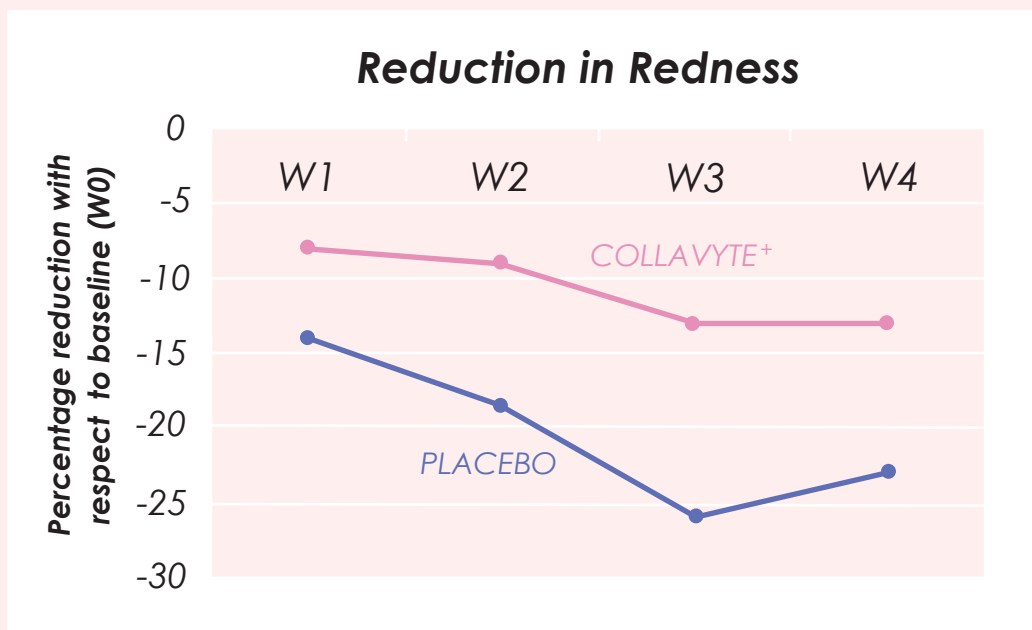

The Proof

A clinical study of 150 sun-sensitive people

86%

Of participants experience significant relief

Greater inhibition of UV caused redness

*In vivo test

3rd CORE Ingredient :

POMEGRANATE EXTRACT from Spain

Super fruit combines with patented French ADS Nanotechnology

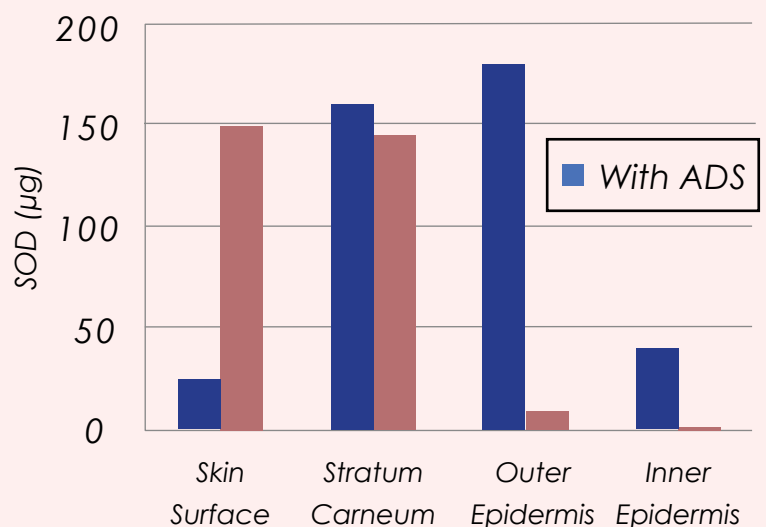

- ✓ Antioxidants level are 40 times higher than the conventional pomegranate juice
- ✓ Active pomegranate extract able to rejuvenate and lighten skin complexion
- ✓ Antioxidants are estimated to be 4 times higher than green tea
- ✓ Antioxidants are able to penetrate deeper into the skin

Benefits

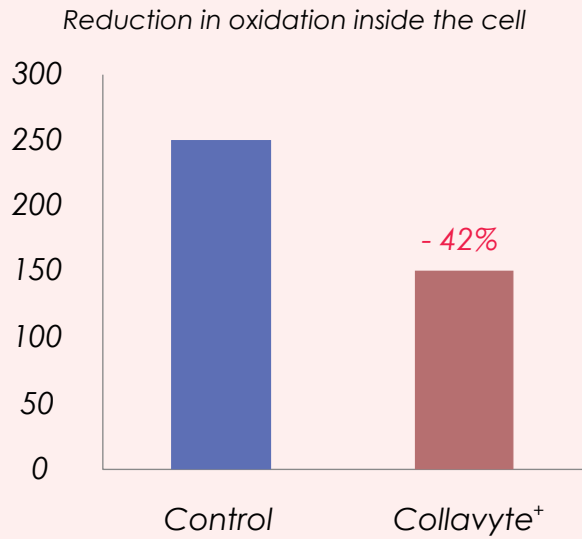

- Deeply moisturizes the skin
- Reduce fine lines
- Reduce dark spots / blemishes
- Reduce inflammation
- Skin lightening
- Promotes blood microcirculation

ADS Enhances Skin Penetration

4th CORE Ingredient :

WHITE TOMATO EXTRACT from Israel

“Edible Sunscreen”: Revolution in Sun Protection

- ✓ A unique breed of non-GMO tomato species
- ✓ Rich in colourless carotenoids : phytoene and phytofluene that do not stain the skin
- ✓ Protection against oxidative and sun damage
- ✓ Antioxidants are 400 times stronger than regular red tomatoes

Benefits

- Natural sunscreen
- Natural antioxidant
- Skin lightening and whitening
- UVA and UVB Protection
- Inhibition of melanin synthesis
- Control pigmentation

The Proof

Clinical study based on 22 women

	Week 6	Week 12
Decrease in skin pigmentation	↑ 77%	↑ 82%
Decrease in skin roughness	↑ 86%	↑ 90%
Improvement in skin texture	↑ 77%	↑ 90%
Improvement in skin suppleness	↑ 86%	↑ 90%
Evenness of complexion	↑ 64%	↑ 95%

5th CORE Ingredient :

N-ACETYLGLUCOSAMINE (NAG) from KOREA

Korea Patented Safe & High Effective Technology

- ✓ Natural ingredient derived from 100% Enzymatic technology
- ✓ 3 times higher bioavailability than glucosamine
- ✓ Approved by drug registration authorities
- ✓ Precursor of hyaluronic acid

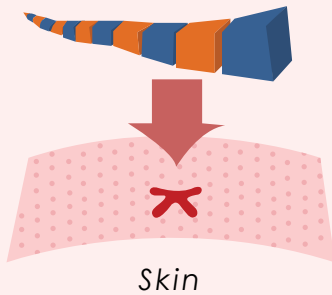

Benefits

- Improves gut health
- Improves joint function
- Prevents fine lines
- Promotes wound healing
- Improves skin elasticity
- Skin lightening

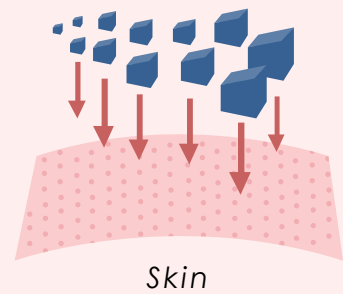

Hyaluronic Acid

Larger and difficult
to be absorbed

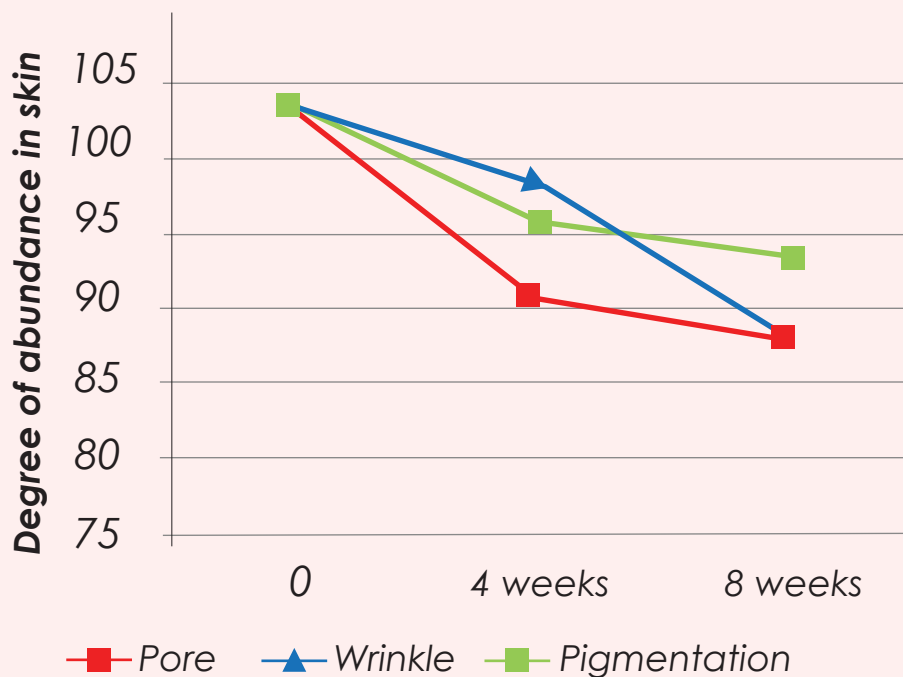

NAG

Smaller and easy
to be absorbed

The Proof

Clinical trial showed that 20 women have decreased in pore, wrinkle and pigmentation in 8 weeks time

The Proof

Skin improvement is observed in 8 weeks

Before Intake

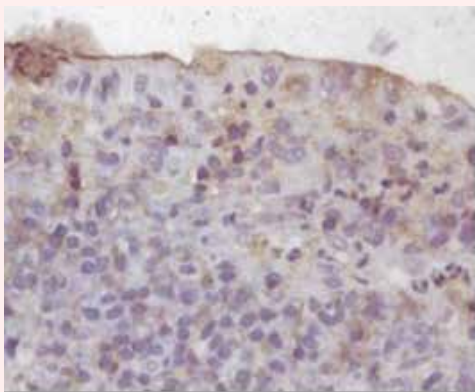

After 8 weeks

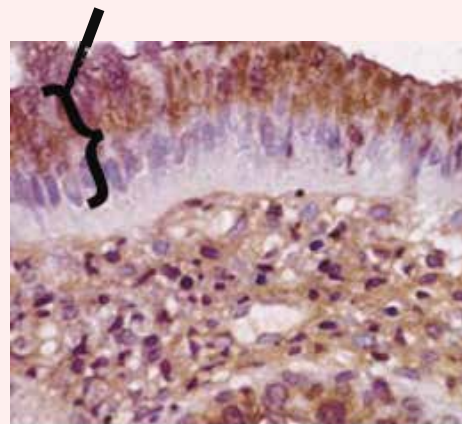

**In vivo test

8 out of 12 subjects showed a clear improvement of gut health in 6 weeks.

Restoration of gut wall

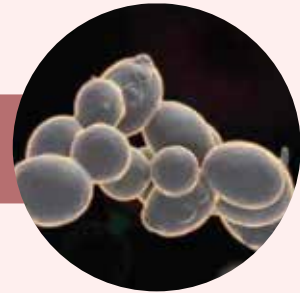

Before Intake

After 6 weeks

Other Ingredients

Japanese Torula Yeast Extract

Rich in Glutathione

Promotes healthy overall skin tone

Whitening, antioxidant, smoother skin,
anti-inflammation

Vitamin C

It helps in synthesizing of collagen
and has antioxidant effect

Xylitol & Oligosaccharides

Natural sugar substitute that has
fewer calories

AYMÉIR COLLAVYTE⁺

results, consume
before bed

Recommended Individuals

- Insufficient sleep
- Frequent and prolonged exposure to sunlight
- Excessive toxins in the body
- Poor skin care routine
- Endocrine disorder
- Poor quality of life : Smoking
- Staring at a computer screen for hours at a time
- Use of poor quality cosmetic

Avoid

Vegetarian

Pregnant

Allergy to shellfish

FAQ

How effective is this product?

A: The lifespan of skin cell is approximately 28 days. Hence, it is advisable to consume Aymeir Collavyte+ for atleast 28 days. At the early stage, one will notice that the skin has become more radiant and the make-up applied will be more lasting. Continuous consumption will improve the overall skin hydration, firmness and suppleness.

Will the skin experience any adverse effects if an individual stop consuming the product?

A: Ones will not experience any adverse effects if stop consuming Aymeir Collavyte+. However, an individual can still lose collagen components in the body eventually. Hence, it is advisable to maintain a consistent intake.

Do frequent consumption lead to weight gain?

A: The calorie for one sachet of Aymeir Collavyte+ is 10kcal which is way much lower than other collagen supplements that found in the market.

Can pregnant women consume Aymeir Collavyte+?

A: Aymeir Collavyte+ uses natural, friendly ingredients but we do not recommend it to pregnant women. It is only advisable to be taken after delivery (not including 6 months of exclusive breastfeeding) to replenish the lost collagen during pregnancy and to treat stretch marks.

When is the best time to consume ?

A: It is recommended to be taken before sleep because when we are at rest, our body absorb better.
