

How To Hang Your Art

Canvas Prints
Framed Prints
Aluminum Prints
Wood Prints

- 1) Decide where you'd like your art. We recommend using masking tape to find the perfect placement.
- 2) Mark your wall in pencil, at the top center of where you would like to hang your art piece. The bottom of your two wall hangers will sit 6" below this mark.
- 3) To determine the position of the wall hangers, turn your art over and measure the distance, center-to-center between the sawtooth hangers.
- 4) Apply these measurements to your wall, using your pencil mark as a guide.
- 5) Make sure the pencil marks are level and firmly secure the two wall hooks into your wall using the supplied nails.
- 6) Hang your art!

We love to see your installed artwork! Please tag us on your posts.
