**Premier Pro-Builder's Series  
Hi-Build-Multi-Surface  
Latex Flat**

Premier Pro- Builder's Series Multi-Surface Latex Flat Interior Wall Paint is a fast drying, hi-build multi-surface coating used to seal, prime and finish drywall, wall-board, plaster, masonry and wood. Premier Pro Builder's Series Flat Latex provides a durable, clean, white finish with outstanding hold-out when used as a under-coat for texture, or smooth-wall finishes. As a primer, TUFFKOTE seals and primes surfaces with excellent hide and hold-out, providing a uniform surface for finish coats. Finally, this versatile, Eco-Friendly product can be used as a low cost, Hi-build, wash able flat interior paint with good coverage and hide. Premier Pro Builder's Series Interior Flat is very economical to use providing the professional painter with one easy-to-apply product that does it all.
