Compatible Transmitter:

KO PROPO RF-903/RF-904FH

KO PROPO EX-1

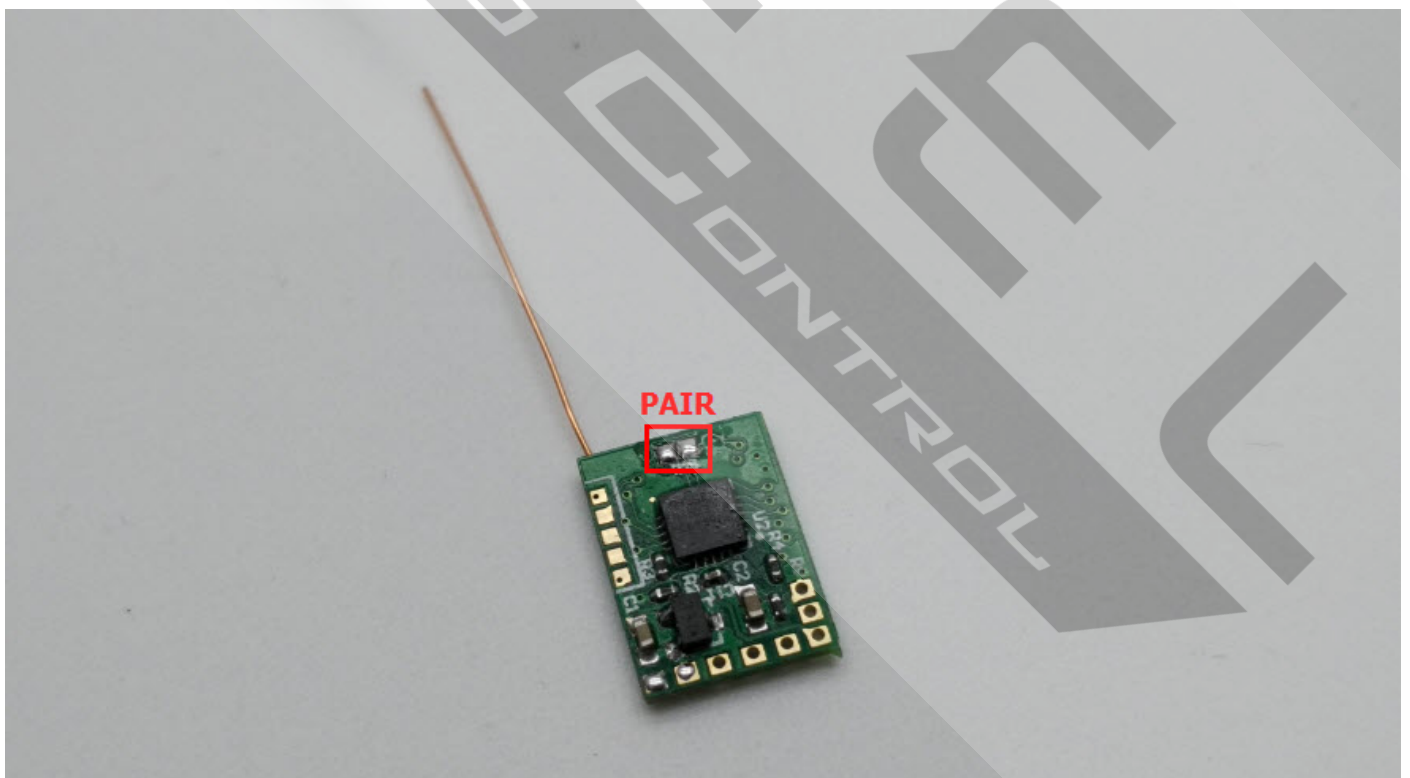

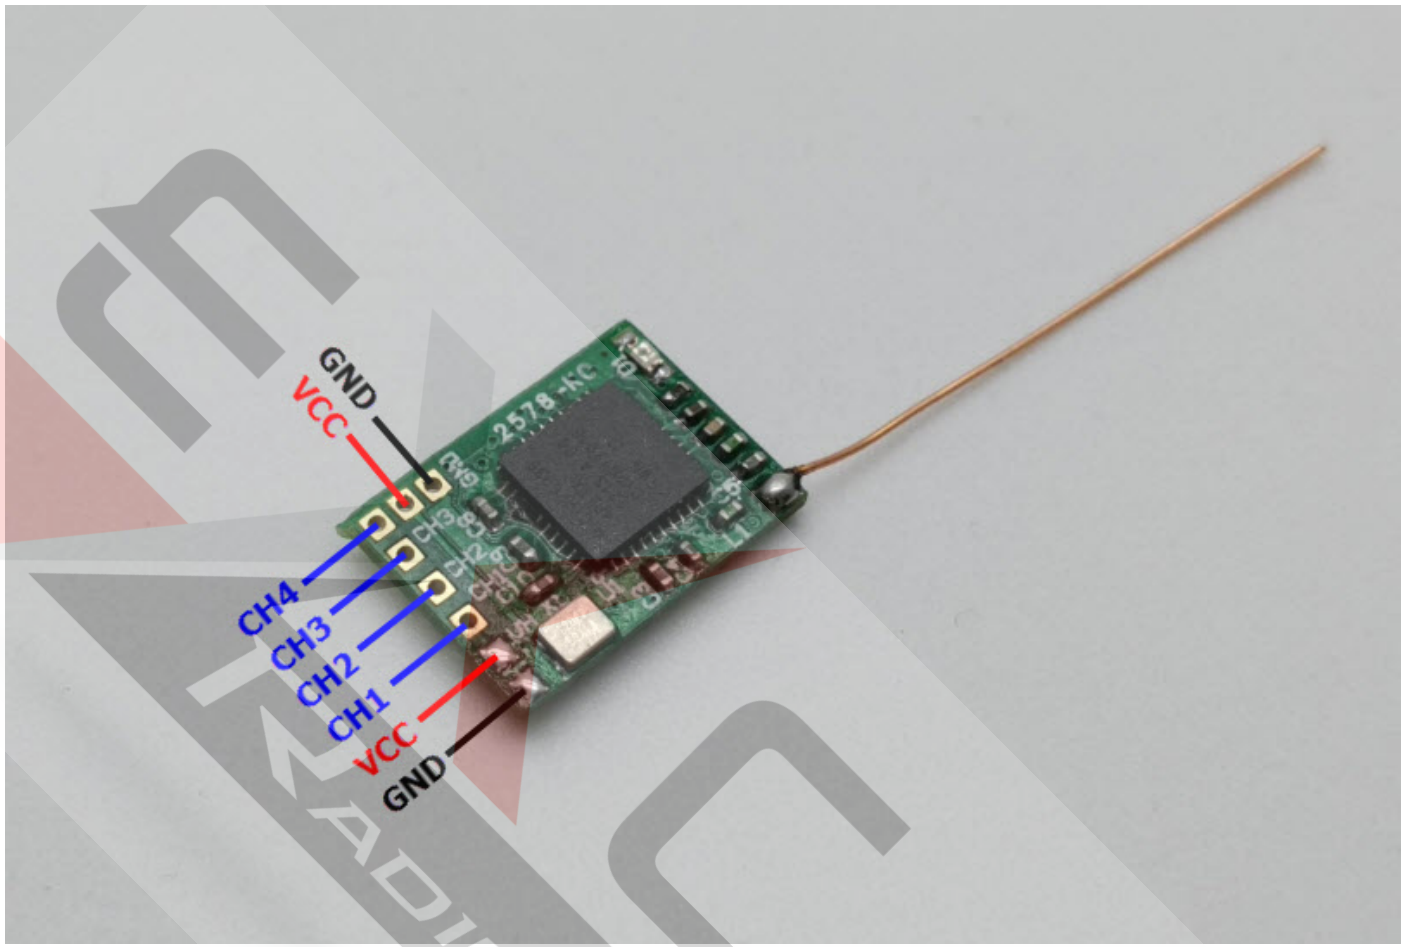

KO PROPO EX-2

KO PROPO EX-RR

Package Included:

1 x FHSS 4CH Receiver

Wire Connection:

Pair:

Power on the transmitter and set it to be in pairing mode. Solder the PAIR point on receiver then power it on. Keep the receiver with power on and di-solder the PAIR point on receiver. The LED will turn on when the receiver binds the transmitter. Set the transmitter to quit the pair mode (EX-1, EX-2, EX-RR) or power off the transmitter then power on again (903FH, 904FH). Power off the receiver and power on again and it should work.
