

## 5 Seconds™ Ultimate Series Wireless Package Scale

### PROGRAMMING INSTRUCTION

Step by step on how to set your desired time for the automatic shut off feature. First press “Light” and “Mode” together on the digital keypad. Second when it shows “30” the default time on screen, press “Tare”. The screen will then show 0/60/120/180. You can cycle through the numbers to the time you need by pressing “Tare”, then press “Light”. Screen will show “Pass”, then it will shut off. When it is turned on again your setting will be saved and scale is ready to use.
