

# OVERVIEW

All construction professionals know the importance of a quality roof system. That is why so much research, time & effort goes into specifying and installing the right roofing product for every home or building.

Sharkskin Ultra SA® is a "patented" industry leading, synthetic butyl self-adhered/peel & stick roof underlayment that utilizes a high strength, ultra-bond adhesive engineered to eliminate the drawbacks of traditional asphalt/SBS modified based peel & stick membranes. Sharkskin Ultra SA® combines the toughest, high-tensile strength, slip-resistant polypropylene based and engineered membrane in the industry, with a state of the art adhesive layer that out performs the competition.

Sharkskin Ultra SA® is "high temp" rated and offers advantages year round for metal, clay/concrete roof tile, slate, wood and asphalt shingle roof installation that are un-matched in the roofing industry for pitched roofing systems. Sharkskin Ultra SA® creates a new category for self-adhered roof underlayments, providing extreme high-wind resistance, approved for adhesive set tile, and part of the first Miami-Dade approved all synthetic 2-ply roof systems.

These days you can't afford to open yourself up to the potential liability of inferior peel and stick membranes. Give your customers the finest roofing system by starting with "The Ultimate Roof Underlayment" Specify Sharkskin Ultra SA®.

SUITE 387  
SIMI VALLEY, CA 93065

PATENT # 6,308,482  
PATENT # 8,765,251  
AMERICAN OWNED AND OPERATED  
100% RECYCLABLE

**Engineered to exceed industry standards for long term moisture protection!**

# Superior Benefits

## Superior Protection

Maintains weather proofing if primary roof cover leaks or is blown off.

## Faster Installation

Light weight 70lb 5-SQ  
48"x125' roll

## Nail Sealability

ASTM 1970 after 30 days UV  
per ICC-ES AC152 testing .

## Faster Coverage

Multi-directional roll, no selvage  
edge, w/split release liner

## High-Temp Rated

280° F for metal roofing sys-  
tems

## Faster Roof Installation

No primer / 10 degrees and  
rising

## Slip-Resistant

Even in wet or dusty condi-  
tions

## Cooler To Work With

Grey Surface stays cool &  
keeps building cooler during  
construction

## Will Not Scar or Melt

NO Sticky Mess like with as-  
phalt

## 12 Month UV Exposure Eliminates Slip Sheet

Serves as a slip sheet be-  
neath metal roofs

## Sticks to Itself

No sealant/mastic required  
at vertical and horizontal  
laps

## Adhesive Set Tile Roof- ing Approved

Polyset AH-160, DAP  
1&2 component, Dow

## Application Advantages

Direct to plywood, OSB,  
Metal, Concrete, TPO, EPDM,  
or over mechanically fastened  
Sharkskin Ultra® roof systems

**Long term warranties available-

Products**

# SHARKSKIN™ Ultra SA All Weather Barrier

## Description

Created specifically for all direct deck applied clay/concrete tile, metal, slate, wood and asphalt shingle roof systems. Sharkskin Ultra SA® is designed to protect homes and buildings from water intrusion due to high wind events such as hurricanes, tornadoes and seismic activity from earthquakes, as well as providing secondary protection when the primary roof covering is lost due to extreme weather events. No self-adhered roof underlayment on the market provides the design application advantages of Sharkskin Ultra SA®, the only choice as part of a long term roof system warranty. Specify the "Ultimate Roof Underlayment", Specify Sharkskin Ultra SA®.
