How to check a car has CarPlay or not

1. Plug an iPhone (running iOS 10 or newer) into the car USB ports with genuine factory lightning cable. If there is a notification pop up on iPhone like below, that your car has built-in Apple CarPlay.

Allow CarPlay with "_____" while phone is locked?

Your contacts and other information will appear on this car's display without unlocking your iPhone.

Not Now   Allow

2. If there is a CarPlay icon in the car stereo menu, that your car has built-in Apple CarPlay.

or

3. Contact your car dealer for help.

CarPlay

Please use a dual Type-C cable if your car equips with Type-C port for CarPlay connection.

How to connect wireless CarPlay

Bluetooth
name

● **Connection method I**

- Turn on your iPhone's WiFi and Bluetooth, then connect to the Bluetooth name list on the car screen
- Tap **"Use CarPlay"** on the iPhone pop-up notifications
- It will connect to wireless CarPlay after a few seconds.

● Connection method II

- Turn on your iPhone's WiFi / Bluetooth and stay on the BT menu (allow new connections)
- Select "**Find iPhone**" on the car screen
- Select your iPhone from the list after searching finished
- Tap "**Pair-Allow-Use CarPlay**" on the iPhone pop-up notifications
- It will connect to wireless CarPlay after a few seconds

Settings

● **How to clear connection history**

- Long press the device you want to delete
- Then select "**Delete**" on the next interface
- Or select "**Clear pair list**" to clear all history in the Settings menu ⚙

● **How to remove history from iPhone**

Go to iPhone Settings > General > CarPlay, tap your car and then tap Forget This Car.

● Auto connect

Auto connect **ON** means every time the adapter start, it will connect to the last iPhone to use wireless CarPlay automatically.
OFF means you need to connect to CarPlay by tapping the iPhone from the pair list manually.

● Save log

Please keep it ON by default.

█ Firmware update

Generally, we DO NOT recommend firmware update when all functions work normally.

● How to update

- If your iPhone is connecting to the wireless CarPlay, enter **192.168.50.2** on iPhone's browser, next tap "**Check for updates**"
- If your iPhone could not connect to the wireless CarPlay, please join the adapter's WiFi network (similar to Bluetooth name) by manual and the password is **12345678**
- Next enter **192.168.50.2** on iPhone's browser, and tap "**Check for updates**".

It is the latest version
VER.2021.03.06.1355

Check for updates

Report an issue
