Light that matters

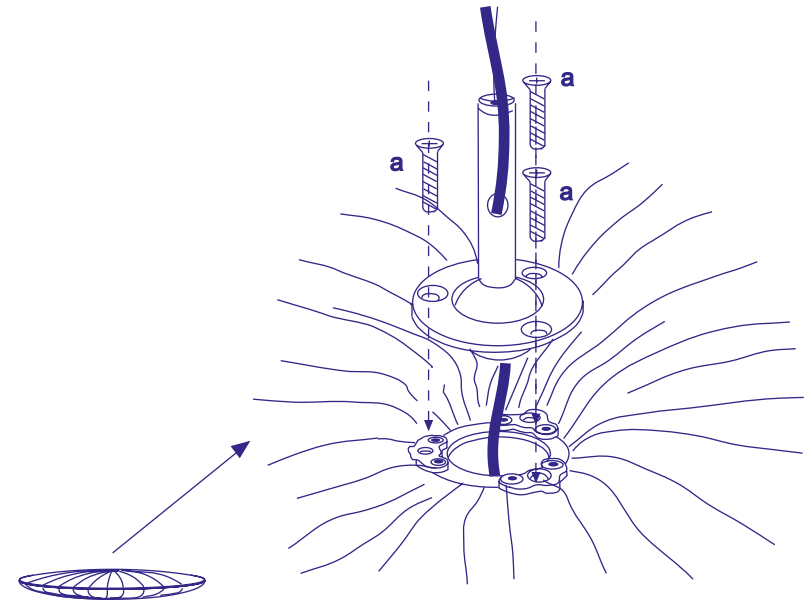

**Silk Lighting Maintenance:** All Lampshades in the Silk Lighting Collections are made of hand dyed, treated crushed silk that is resistant to mold and fire. The silk is sculpted over a metal structure. For optimal maintenance, vacuum the silk frequently and avoid direct sunlight or smoke. To remove stains use upholstery foam cleaner. (As these vary depending on manufacturer, testing the product on a hidden spot is recommended)

- 1 Prepare the lamp: disassemble the hanging element and install the parts as show in drawing A. Release the three screws marked as "a" and keep them for reuse.

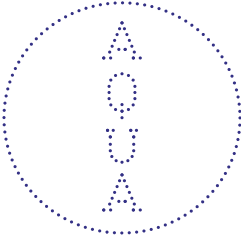

- 2 Install the O ring by tightening the screws as shown. Then loosen them 1/2 a turn counterclockwise to allow an almost non friction movemant of the ball.
