

WEBER
WORKSHOPS

Electrical/Electromechanical Engineer • Asia Pacific / Taipei

Posted: Oct 10, 2023

General Description

The EE (Electrical Engineer) position for Weber Workshops (herein 'WW') will be a challenging position geared towards developing some of the most technologically advanced coffee machines the world. You will be tasked with creating custom PCB layouts and designing the electrical circuits for yet-to-be-released products on the WW roadmap.

Specific Tasks

- Circuit diagram and schematic creations for new/existing products.
- PCB layout and design together with mechanical team.
- Arranging and overseeing the electrical/EMC compliance testing of devices.
- Improving/Iterating on existing products for more robust/reliable custom electrical designs.

Compensation

Salary will be commensurate to experience and in consideration of current salary. Yearly bonuses based on profit-sharing are part of the package.

Interested?

Please send your CV along with a brief description of yourself and why you want to join an awesome coffee products team to [**jobs@weberworkshops.com**](mailto:jobs@weberworkshops.com)

Equal Employment Opportunity

Weber Workshops strongly supports equal employment opportunity for all applicants regardless of race, color, religion, sex, gender identity, pregnancy, national origin, ancestry, citizenship, age, marital status, physical disability, mental disability, medical condition, sexual orientation, genetic information, or any other characteristic protected by state or law of residing country.
