

WEBER
WORKSHOPS

Product Design Sustaining Engineer • Asia Pacific / Taipei

Posted: Oct 10, 2023

General Description

The PDS (Product Design Sustaining) position for Weber Workshops (herein 'WW') will be a unique position geared towards improving our designs and manufacturing methods across the board. You will be tasked with taking current products and coming up with innovative ways to streamline/reinvent the manufacturing process for them, both with cost and quality in mind.

Specific Tasks

- Work with existing designers/engineers to fully understand our products, processes, and critical dimensions.
- Find alternative vendors and "Plan B" sources for our main components and assembly.
- Develop relations with new manufacturing base, both inside and outside of Taiwan.
- Create new schematics and product drawings based on current designs.
- Assist with the new designs of roadmap products, with the intention of moving into this space when ready.

Compensation

Salary will be commensurate to experience and in consideration of current salary. Yearly bonuses based on profit-sharing are part of the package.
