

SLEEP & BEYOND

myComforter® - light

The ideal 100% natural tropical weight wool filled comforter that has a remarkable effect on the quality of sleep and can benefit our body, mind, and soul. Sleep well. Sleep healthy.™

PRODUCT CARE

1. To better ensure the long term performance of your new comforter, we recommend you protect it with a duvet cover.
2. Regular sunning and airing of your new comforter each time you wash your duvet cover will naturally revitalize and disinfect your wool bedding.
3. You may spot clean the cotton cover of your new comforter with soft brush and mild detergent. Allow the comforter to air dry completely before putting it into the duvet cover.
4. For major stains, which penetrate the protective duvet cover and the comforter cover, eco friendly dry cleaning on short cycle and limited moisture is recommended.
5. Machine wash in warm or cold water on wool cycle without agitation. Use an approved wool detergent. Dry on minimal heat or air dry. Do not bleach. Do not iron. Rinse well.

***Please note that machine washing may result in wool batting separation and creation of empty spots inside the comforter.
