HNR (Non Residue) Label

This enhanced performance tamper visible label is ideal for applications where aesthetics are important.

It shows a clear VOID/OPEN security message when the label is lifted but does not leave a residue on the surface.

Initially developed for use on the doors and hatches of aeroplanes when they are parked overnight or in flight. The HNR Label is however **suited for most non-porous surfaces.**

Applied to surface

Partially removed from surface

This product gives visual evidence of tampering or illegal entrance on doors, aircrafts, vehicles, sensitive equipment, lockers, containers, restricted areas, etc.

Features: • Voiding • Totally removable • No residue • Weather resistant • Numbered

Face Material: 36# PET film | **Adhesive:** Acrylic
