

Relied upon since 1969

Tyden Seal

Features

- Double locking ring design provides 100% effective closure.
- Seal end is visible for inspection through sight viewing hole.
- Tamper-resistant ball housing employs crimp lock security seam that makes removal impossible without leaving evidence of tampering.

Material

Standard finish: Tin-plate steel.

Rings are independent of ball housing for positive locking indication.

Ball housing: steel die-pressed with crimp over seam.
