## HR (Residue) Label

This enhanced performance tamper visible label is ideal for applications where aesthetics are important.

It shows a clear VOID/OPEN security message when the label is lifted but once removed, the adhesive under a transparent layer will be completely transferred to the applied surface.

The HR Label is suitable for use on most non-recyclable smooth and even rough surfaces, carton boxes, painted metal, woods, plastic and packaging.

Applied to surface

Removed from surface

This product gives visual evidence of tampering or illegal entrance on doors, aeroplanes vehicles, sensitive equipment, lockers, containers, restricted areas, documents, etc.

**Features:** • Voiding • Removable residue • Weather resistant • Stock numbered

**Face Material:** 25# PET film | **Adhesive:** Acrylic
