## MINI MALIBU BOARD DIY-KIT

### WHAT'S INCLUDED:

- 1x Mini Malibu Board
- 1x Cork roller
- 1x HORST bag
- 1x Sandpaper
- 2x Stopping aids
- 4x Screws

### WHAT YOU WILL ALSO NEED:

- Some space to sand and shape the board
- A screwdriver to attach the stopping aids
- A sanding block (optional, makes sanding easier for you)

## DIY-KIT MINI MALIBU BOARD PRODUCT DETAILS

### MATERIAL

Our Mini Malibu Board is made of PEFC-certified multi-layered pine. Wood is a natural product. Seasonal influences (winter/summer) may affect the appearance of the product. It is possible that you will see small branches, pitch pockets and dark spots.

### DIMENSIONS

Board: 72 cm x 24 cm x 1.2 cm

Roller: 30 cm x 8 cm

### WEIGHT

Approx. 1.2 kg

### CARE INSTRUCTIONS

We recommend to seal your board with wood protection (HORST Oil, HORST varnish), so you can have fun with it for a long time. You can simply clean it with a damp cloth.

### MAX. LOAD

Up to 100 kg

### PREPARE YOUR BOARD:

Let's go! Use the included sandpaper, sand the edges and make your board smooth. To make it easier for you, we have already rounded off the edge a little bit.

### HORST'S TIP:

For the best result, always go with the grain. A sanding block can help you in the process.

### ATTACH THE STOPPING AIDS:

Grab the two stopping aids and align them on the board. The short one goes on top of the board and the long one on the end.

We recommend to align the stopping aids with a space of 10 cm away from the edge of the Board. For the really young ones: 15 cm

Now attach the stopping aids with the screws to the

### DESIGN YOUR BOARD:

You can use tape to protect individual areas from paint and to create individual patterns. To cover larger areas, you can cut out old cardboard boxes to the right size.

### DESIGN YOUR BOARD:

Make it one of a kind! Design your board with wood colours and let your creativity run free.

### EXAMPLES OF USE:

Here you can see what the first steps on the board can look like.

And with that, you've already done it!

## DIY-KIT MINI MALIBU BOARD FAQ'S

### WHY DO I NEED A MINI MALIBU BOARD?

With the Mini Malibu Board you will strengthen the deep muscles in almost the entire upper and lower body and have the perfect introduction to all board sports. Your sense of balance and body awareness will also improve and also it is a lot of fun!

### WHAT'S THE DIFFERENCE BETWEEN THE MINI MALIBU BOARD AND THE BALANCE BOARD 2.0?

Our Mini Malibu Board is specially designed for kids. It is lighter, smaller and has a simplified shape. With a diameter of 8 cm, it's easy to hop on the board and at the same time it gives enough space for boarding and small tricks. The stopping aids provide the necessary protection and make it difficult for the board to leave should you lose your balance. Perfect for kids and beginners!

Our Balance Board 2.0 is the bigger brother with a 10 cm roller. Suitable for all those who have already stood on the board or are already a little more confident.

**HORST®**

## DIY-KIT MINI MALIBU BOARD FAQ'S

### WHERE ARE THE BALANCE BOARDS PRODUCED?

Our DIY-Kit, including the board, is produced, packed and shipped in Hamburg. Our cork roller is sustainably produced in Portugal and then further processed by us.

### WHAT DO YOU NEED TO USE THE BALANCE BOARD AT HOME?

Everything you need is included in our DIY-Kit.

### HOW CAN I PROTECT MY BOARD FROM GETTING DIRTY?

We recommend that you protect your board with a finish. Our HORST oil or HORST clear varnish is ideal for that.

**HORST®**

## DIY-KIT MINI MALIBU BOARD SAFETY NOTE

### AGE

Starting from 3 years. Children under 14 should not use the board unsupervised.

### USAGE

Use at your own risk. There should be enough space and a non-slip surface. We recommend to use the board only lengthwise to the roll (see picture).

### THE MINI MALIBU BOARD

Our board for kids! The Mini Malibu Board was developed especially for the little surfers among us. Small, light and ideally shaped for beginners, it is the ideal introduction to all board sports, brings a lot of fun and trains the sense of balance.

Thanks to our stopping aids, launching is a breeze and gives it that extra dose of safety. The best thing about it? Write them down depending on your needs at different positions and even off again as soon as the kids master the board safely.

For the right style factor you can freely design the Mini Malibu Board and make a real DIY project out of it. Grinding, painting, gluing, everything is possible.
