Care and Maintenance

In order to keep the chrome surface bright , please clean the mixer regularly.

Rinse faucet with clean water and wipe with soft cotton cloth.

Avoid using cleaning powder , harsh cleaning chemicals, abrasive cloth with coarse surface to prevent scratching and corrosion.

Do not use acid cleaner to clean the faucet as it may cause surface corrosion of the faucet. If the faucet comes in contact with acid or acid substances ,please clean it with water immediately.

If a large-scale clean-up is necessary, follow these procedures:

1.Use clean water and soft cloth to remove dirt on the surface as much as possible.

2.Remove the following cleansers to remove dirt on the surface

- Mild household cleaner.
- Odorless glass cleaner ,powder cleanser which does not have abrasive function and can be dissolved completely.
- Polish liquid which does not abrasive function.

3.After cleaning, remove the cleansing agent with clean water completely and wipe with soft cotton cloth.
