Round buttom 1 ,2, 3,4 : function buttons,
Operation: single time push-down buttom is to turn on the water, double time push-down buttom is to turn off the water
I.e. if you turn on the rainfall, you just push down buttom that control rainfall function.

The square knob is to control water temperature. You can move the knob to the left side after you push down the small buttom on the square knob. This is anti-scale setting.
