HOW IT WORKS

Vânt combines expert craftsmanship and sophisticated style to create a look that's simple to achieve. Our frame is made up of 4 sturdy panels which are latched together with "L" shaped connectors at each corner.

Metal legs easily attach to elevate the frame.

Perfectly spaced slats upholstered in non-woven material are then rolled out covering the frame like a mat.

Now the mattress is placed on top of the slats and Voilà, Sleep well.

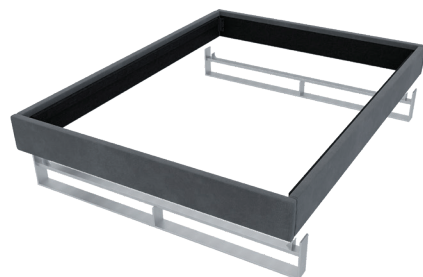

4 sturdy panels latch together with "L" shaped connectors at each corner.

Screw the "L" shaped connector into the predrilled holes then assemble the box frame.

Attach the metal feet/legs to their designated spot on the side panels.

Insert and attach the center support beam. Roll out the perfectly spaced slats upholstered in non-woven material.
