About Oak & Black

With a background in Education and sports coaching, I have always been energised by helping people see and fulfil their potential.

An amazing way to motivate and inspire your people is through recognising and acknowledging their achievements and efforts, such as marking an event, a victory or season, or them embodying your institution's values.

This is where we can help you.

Freddie Main, Managing Director

At Oak & Black, we predominantly work with reclaimed materials and believe that with the right amount of focus, attention, and love we can turn these redundant materials into beautiful products and heirlooms that will bring joy for years to come. The ability to create is within all of us and it is something that I know has always brought me great joy; seeing these creations bring joy to others is even more special.

Kindness, Creativity, Sustainability

At the heart of what we do are Kindness, Creativity and Sustainability. Let's work together to create beautiful and sustainable awards and gifts to acknowledge the people within your institution; giving them something to treasure forever.
