FORD08SS

WHAT'S IN THE BOX

Intermediate Pipe

Manufactured from 3.1/2" S409 Stainless Tube and painted in a high temperature Satin Black finish, the intermediate pipe flows straight from the DPF and includes the 10mm tube to re-connect the emissions sensor.

Inline Resonator Pipe

Our inline resonator design has been proven to improve the flow of exhaust gasses and sound waves when compared against traditional muffler or resonator installations. Included in the kit as standard is a resonator delete pipe for the enthusiast that wants maximum flow and sound.

Tailpipe Assembly

The tailpipe is Mandrel Bent from 3" S409 tube and connects to the Resonator Pipe with a single bolt clamp. Optionally you can upgrade to a side exit pipe - see below for details.

Full Fitting Kit

As with all Outlaw Performance Exhaust kits, our FORD08SS comes complete with high quality gaskets and all hardware required for install. Replacement parts including rubber mounts are carried at all of our branches nationwide.

OPTIONAL UPGRADE TO SIDE EXIT TAILPIPE

Upgrade your FORD08SS with our optional side exit tailpipe which features dual polished 304 Stainless Steel outlets. Easily interchangeable with the existing tailpipe by releasing the single bolt clamp. Comes complete with a new E-Coated rear hanger mount ensuring accurate reliable fitment. Order code FORD09TPK.

* Fitment and design confirmed on MY22 Ford Ranger XLT 3.0L V6. Whilst all efforts have been made to ensure fitment accuracy based on the data available to Mercury Mufflers, certain generations and factory/aftermarket components may result in the modification of the supplied Exhaust upgrade. Mercury Mufflers do not take responsibility for additional charges that may be required in the event of these circumstances. The 5-year warranty provided on Outlaw Exhaust systems covers only the supplied product at time of purchase. Catalytic Converters used are covered for 12 months from date of fitment. Modifications, penalties, or damage caused from fitment is not covered under our warranty conditions. Engine management lights may be illuminated when fitting this aftermarket exhaust due to DPF settings.
