

WATER TANKS

POTABLE & NON-POTABLE

Potable Water Tank Applications

Specifically designed to store water for emergency human consumption or animal drinking, the DESO potable water tanks are fully recyclable and made from WRAS approved material. They must be installed on a firm, solid flat base and be fully supported.

V1675 WST/PWST

Capacity: 1675 Litres/368 Gallons
Diameter: 1410 mm
Height: 1500 mm
Outlet: 1" or 2" BSP

V3050 WST/PWST

Capacity: 3050 Litres/670 Gallons
Diameter: 1700 mm
Height: 1810 mm
Outlet: 1" or 2" BSP

V6250 WST/PWST

Capacity: 6250 Litres/1375 Gallons
Diameter: 2120 mm
Height: 2300 mm
Outlet: 2" BSP

Non-Potable Water Tank Applications

Designed as a basic water storage tank for non-drinking (not intended for human consumption) use such as vehicle washing, irrigation and washdowns. Must be installed on a firm, solid base and be fully supported.

V9200 WST/PWST

Capacity: 10000 Litres/2200 Gallons
Diameter: 2260 mm
Height: 2700 mm
Outlet: 2" BSP

V12000 WST/PWST

Capacity: 12000 Litres/2640 Gallons
Diameter: 2450 mm
Height: 3500 mm
Outlet: 2" BSP

V1200 WST

Capacity: 1200 Litres/264 Gallons
Diameter: 1160 mm
Height: 1270 mm
Lid: 415 mm
Outlet: 1" BSP

Water Tanks supplied with:

2" BSP male outlets fitted as standard which can be connected into copper, pex, hydrocare etc.

Access point to allow easy access for fitting of ballcocks, floats and extra outlets.

UV Stabilised material

V1500 WST

Capacity: 1550 Litres/340 Gallons
Diameter: 1100 mm
Height: 1780 mm
Lid: 415 mm
Outlet: 1" BSP

Water Tank Applications

Water storage for domestic, agricultural or commercial premises

Static above ground installations only

Animal drinking

Vehicle washing

Emergency human consumption
