

VRR PERISHABLE DISPOSAL PROGRAM

Version 18

Vail Resorts Retail requires all vendors who supply perishable products to participate in our Perishable Disposal Program unless otherwise approved by a Divisional Merchandise Manager.

VRR will handle merchandise that is past its expiration/best by date but otherwise in sellable condition by field destroying it for credit. This means VRR will destroy/recycle all expired product and take full credit for the merchandise.

At the end of each quarter VRR will take a deduction from vendor invoices in the form of a chargeback fee. The amount of the chargeback will be equal to the total cost of product that expired during the quarter. A deduction notification email will be sent to the compliance notification contact list in the supplier profile on www.vailresortsretail.com/vendors prior to the deduction.

VRR Reserves the right to remove any vendor at any time from the Perishable Disposal Program.
