#### Industry

250 ml pumpspray  
30 pcs/box  
Artnr: 119

- **Reliable protection; destroys ALL viruses, fungi & bacteria such as E-Coli, Legionella and SARS-COVID.**
- 99,8% water and 0,2% chlorine dioxide (ClO<sub>2</sub>).
- 65-95% cheaper than bottled water.
- Minimal plastic waste.
- Does not contain chlorine or alcohol.
- Eliminates the biofilm in the tank.
- 5 times more efficient than chlorine/3 times more than alcohol.
- 1-K products activated within minutes (compare to chlorine tablets: 30 mins waiting time).
- Cleans the water and the tank at the same time.
- Non flammable – i.e. possible to transport by air.
- You drink no chemicals, only barely measurable amounts of salt.
- By Swedish Food Agency approved drinking water additive.
- Produced by a Swedish company, founded 1992.
- No aftertaste or smell.
- Safe & gentle for people, animals & nature.
- More environmentally friendly than chlorine.
- Both customers, partners and lab-tests agree; Xinix products are superior to chlorine based products.
- Scientifically proven.
- Used today by leading companies, authorities and aid organizations worldwide.
- Easy to use (see other side).

Feel free to combine with:  
**Xinix Freebact® Water**  
In addition to bacteria, viruses and fungi, it also deactivates biofilm from your tank and cleans your water at the same time.  
Available from 50L to 10 m<sup>3</sup>.

## FACTS

Chlorine dioxide (ClO<sub>2</sub>) is a GAS by nature – but Xinx has managed to stabilize and bind it into LIQUID FORM.

Chlorine dioxide is not a new disinfectant; it was discovered 1811 by Sir Humphry Davy. It is well-renowned as one of the worlds most efficient disinfectants. It has since then primarily been used for treatment of drinking water, but on a bigger scale only in industries. With Xinx FreeBact® now available in your pocket!

Shelf life: 2 years  
Opened bottle: 30 days

**1-K**  
Ready to use

**FreeBact® Surface** is a product that gives an effective disinfection of hands, surfaces, animals, buildings, industry etc.

**FreeBact® Surface** is effective against all types of pathogenic microorganisms such as fungi, bacteria and viruses. It is easily applied to hands and surfaces, which provides a rapid elimination of microorganisms without drying out the skin or any other sensitive material.

**FreeBact® Surface** does not leave unwanted effects such as odor or residue upon application.

**FreeBact® Surface** is a stabilized liquid chlorine dioxide solution which is available as a ready-to-be-used solution(1-K).

The product is active when yellow.
