Art.No: 132

**Pool 2,5-5 m³**  
12 pcs/box  
Art.No: 134

**Pool 5-10 m³**  
12 pcs/box  
Art.No: 136

**Pool 10-20 m³**  
17 pcs/box  
Art.No: 138

- **Reliable protection; destroys ALL viruses, fungi & bacteria such as E-Coli, Legionella and SARS-COVID.**
- 99,8% water and 0,2% chlorine dioxide (ClO2).
- 65-95% cheaper than bottled water.
- Minimal plastic waste.
- Does not contain chlorine or alcohol.
- Eliminates the biofilm in the tank.
- 5 times more efficient than chlorine/3 times more than alcohol.
- 1-K products activated within minutes (compare to chlorine tablets: 30 mins waiting time).
- Cleans the water and the tank at the same time.
- Non flammable – i.e. possible to transport by air.
- You drink no chemicals, only barely measurable amounts of salt.
- By Swedish Food Agency approved drinking water additive.
- Produced by a Swedish company, founded 1992.
- No aftertaste or smell.
- Safe & gentle for people, animals & nature.
- More environmentally friendly than chlorine.
- Both customers, partners and lab-tests agree; Xinix products are superior to chlorine based products.
- Scientifically proven.
- Used today by leading companies, authorities and aid organizations worldwide.
- Easy to use (see other side).

Feel free to combine with:  
**Xinix Freebact® Surface**  
Disinfection of all types of surfaces like hands, animals, buildings, industry etc

## FACTS

Chlorine dioxide (ClO<sub>2</sub>) is a GAS by nature – but Xinx has managed to stabilize and bind it into LIQUID FORM.

Chlorine dioxide is not a new disinfectant; it was discovered 1811 by Sir Humphry Davy. It is well-renowned as one of the worlds most efficient disinfectants. It has since then primarily been used for treatment of drinking water, but on a bigger scale only in industries. With Xinx FreeBact® now available in your pocket!

After treating your water with Xinx FreeBact®, the only residue is barely measurable amounts of salt, NaCl. You can't even taste it. Compare this to other water disinfectants, where you actually might drink chlorine. With Xinx FreeBact® all the good minerals will also remain in the water.

### FreeBact® WATER SPA & Pool (different sizes) 50 - 10.000 Liters

Clean up the pool and get rid of unwanted biofilm – **at the same time** as you disinfect the water. No need to refill with new water. Take a swim after 40 min.

Shelf life:  
8 years  
Mixed bottles:  
24 hours

Work in an open space or ventilated area.

01  
Unscrew the two childproof caps on the bottles.

02  
Add all of solution B (small neck) to solution A (large neck).

Warning: A strong odor will occur. Never inhale the gas before or after mixing.

03  
Screw the cap back on the A-bottle and shake it gently. Place on a steady surface.

04  
Open the cap half a turn. Wait 10 minutes before using the mixed solution.

Clean tank & water:  
1 box of Xinx FreeBact  
Box 1: step 1-4 + 7-8

Clean tank, water & pipes:  
2 boxes of Xinx FreeBact  
Box 1: step 1-6  
Box 2: 1-4 + 7-8

05  
Pour the solution into the tank.

06  
Flush all pipes.  
Fill tank with water again.

07  
Pour the solution into the tank. Wait 30 min before use.

08  
Your tank and water (+ piping system) are now disinfected.
